IX. FINDINGS

A. Conditional Use Permit

The Commission shall base its determination on the conditional use permit request upon the following:

1. That the site is large enough to accommodate the proposed use and meet all the dimensional and development regulations in the district in which the use is located.

Staff finds the site is large enough to accommodate the proposed use and meet all the dimensional and development regulations in the R-4 zoning district.

2. That the proposed use will be harmonious with the Meridian comprehensive plan and in accord with the requirements of this title.

Staff finds the proposed in-home group daycare will be harmonious with the Comprehensive Plan in that it will provide a much-needed service for area residents within walking distance of homes within the neighborhood.

3. That the design, construction, operation and maintenance will be compatible with other uses in the general neighborhood and with the existing or intended character of the general vicinity and that such use will not adversely change the essential character of the same area.

This is a small in-home day-care in which the single-family home is the primary residence of the applicant. Staff finds the operation of the proposed in-home daycare should be compatible with

the residential uses in the neighborhood and the existing and intended character of the neighborhood and not adversely affect such.

4. That the proposed use, if it complies with all conditions of the approval imposed, will not adversely affect other property in the vicinity.

If the proposed in-home daycare complies with the condition of approval in Section VII as required, Staff finds the proposed use should not adversely affect other properties in the vicinity.

5. That the proposed use will be served adequately by essential public facilities and services such as highways, streets, schools, parks, police and fire protection, drainage structures, refuse disposal, water, and sewer.

Because the site is within the City's Area of City Impact boundary and has been annexed into the City and these services are already being provided to the existing home, Staff finds the public facilities mentioned will be provided to the proposed use as well.

6. That the proposed use will not create excessive additional costs for public facilities and services and will not be detrimental to the economic welfare of the community.

Staff finds the proposed use should not create any additional costs for public facilities and services and will not be detrimental to the economic welfare of the community.

7. That the proposed use will not involve activities or processes, materials, equipment and conditions of operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors.

Although traffic may increase slightly in this area due to the proposed use and clients dropping off and picking up children, Staff finds it should not be detrimental to the general welfare.

8. That the proposed use will not result in the destruction, loss or damage of a natural, scenic or historic feature considered to be of major importance. (Ord. 05-1170, 8-30-2005, eff. 9-15-2005)

Staff is unaware of any natural, scenic or historic features in this area; however, finds the proposed use should not result in damage of any such features.
