Meritorious Service Award and/or Citizen Recognition Nomination Form

I know that this might not fit the criteria for this citation, maybe this would be best suited for a City recognition more so then the Fire Department, but I am going to give it a shot anyway. While Engine 32 was out finishing up some in district training, we noticed a young girl sitting on the side of the street with her dog. This young 10 year olds name was Brianna. She had set up a small Lemonade stand with of course some Lemonade and cookies. After we were done with our training we circled back around to find Brianna still there. We decided to stop and get a cookie and cup of Lemonade from her. When talking with her she said that she was trying to earn some money to save up for a few things that she wanted to buy and that all of her tips that she got was going to go to the homeless. Around this time one of the Ada County Sheriff Officers was returning home from work when he too stopped by to buy a cookie and some lemonade from this girl.

This really touch me as she told us about why she was out selling lemonade and cookies. I couldn't help but think how awesome this was to see this young 10 year old girl willing, amidst all the crazy things going on right now, have the compassion to not only show dedication in trying to earn some money, but to think about others and wanting to help the homeless. It is people like this that do great things in our community, state and nation. She showed selflessness and love to others as she set out to help earn money for a stranger that has nothing. She might have made even a few firefighter's and police officer's day with some refreshing lemonade and cookies :-). She has set an example to many in such a small and simple way. What a big heart she has! Mothers name is Amie Petersen and her phone number is 503-586-4847
