Facility (WRRF) Odor Study Results**

Presenter: Laurelei McVey (Deputy Director Utility Operations)
Time Needed: 15 Minutes

I. RECOMMENDED ACTION

No action is being sought at this time.

II. DEPARTMENT CONTACT PERSONS

Laurelei McVey, Deputy Director Utility Operations	985-1259
Dale Bolthouse, Director of Public Works	489-0372

III. DESCRIPTION

In 2020/2021, the Public Works Department completed an updated odor study. This study used odor sampling and advanced air dispersion models to model and predict odor conditions at the WRRF facility and surrounding areas both now and at full facility buildout. The Department will present the results of that study.
