Brian,

At this time, we are not conducting speed studies or planning on traffic calming this section of Pine for the following reasons:

1. There is still significant apartment construction at the west end of Pine. As with any street that is seeing significant development/construction we do not evaluate it.
2. This section of Pine is not really residential. I counted one (1) home on it at 4551 Quarterhouse Lane. It looks like it may redevelop in the future.
3. This section of Pine at the west end is over 1700 vehicles and we have not conducted a study at the east end. Once construction is complete, we can do a study if requested.
4. This MAY be a primary response route for Meridian Fire. We would want to coordinate with them

John

Hi Kelly,

I'm trying to piece together the TC's previous meeting request, to talk about Pine Avenue speeding, west of Ten Mile. It was implied that there has been previous conversations on this, and that we should discuss it at the next regular meeting, but I don't know who has been involved, what works has been done, or even if there's an actual problem. Do you know if ACHD has done any work out here on the new segment of Pine? Any investigations or analysis?

John, Tara, and Caleb, same question(s) to you all in case you have something that can be shared.

Thanks!
