RE: Urban Forestry Management Plan

Our City Arborist Matt Perkins has written an Urban Forestry Management Plan that will be used as a guiding document for our department and the City. This plan organizes and defines what is currently being done and what our department's goals are for Meridian's urban forest. Matt Perkins would like to share the plan with Council and answer any questions you have regarding our urban forest. We are not seeking adoption of the plan but welcome any feedback that we can incorporate into the plan.
