

MEMO TO TRANSPORTATION COMMISSION

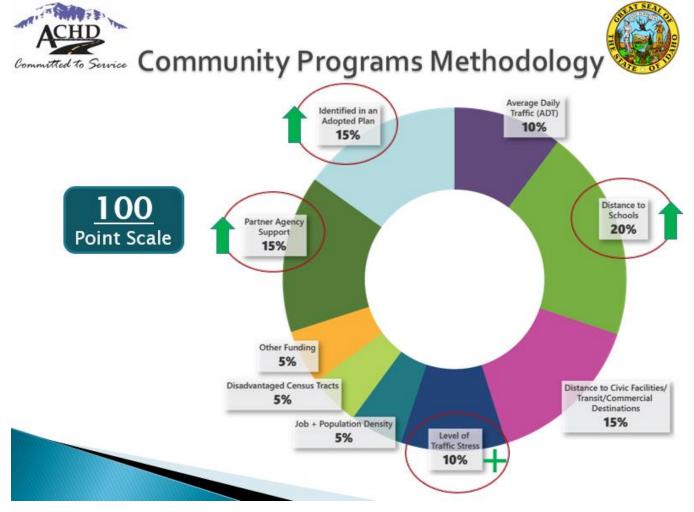

Agenda Topic on the Transportation Commission Agenda

From: Caleb Hood Meeting Date: January 8, 2024

Topic: 2024 Roadway, Intersection and Community Program Prioritization

Annually, the City prepares and prioritizes transportation projects within our community for the ACHD Commission to consider in their programming and budget processes. The Meridian Transportation Commission (TC) is tasked with making recommendations to the City Council on these priority transportation projects. The intent of this memo is to share some high-level programming info from ACHD, a timeline and tee-up the discussion of this process for 2024. During the January meeting the TC will receive a brief refresher on the process and kick-off the process to re-prioritize.

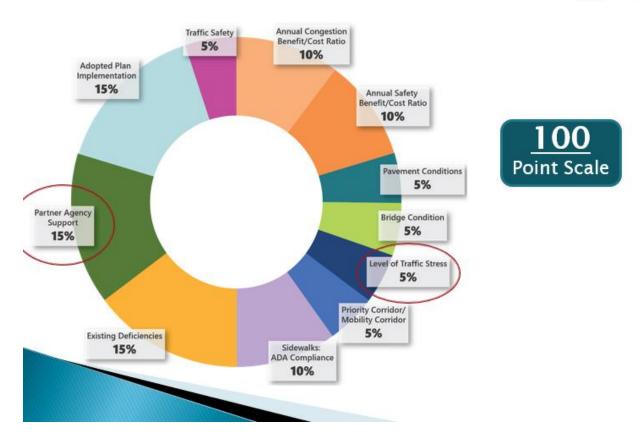

Programming Methodology: The metrics ACHD uses for scoring projects are below:

Roads & Intersection Methodology

The Partner Agency Support metric is based on the prioritization of requests that Council will approve for submittal to ACHD prior to March 15th, ACHD's deadline to receive the City's priorities. The TC is tasked with working through a list of City transportation projects (including adding projects as needed) and recommending a priority order to Council by mid-February.

As a refresher, there are points assigned to the top 10 highest ranked, *unprogrammed* requests. Below is the point scale for unprogrammed requests.

Points Scale Details
0: No partner agency support
1: Project ranked as #10 or lower priority for partner agency
2: Project ranked as #9 for a partner agency
3: Project ranked as #8 for a partner agency
4: Project ranked as #7 for a partner agency
5: Project ranked as #6 for a partner agency
7: Project ranked as #5 for a partner agency
9: Project ranked as #4 for a partner agency
11: Project ranked as #3 for a partner agency
13: Project ranked as #2 for a partner agency
15: Project ranked as #1 for a partner agency or listed in the top ten by multiple partner agencies

New this year, ACHD would like two separate lists: one for already programmed projects and one for new/not programmed projects. (ACHD has already separated our projects into two lists for us; attached.) Staff has a running list of additional projects, new for 2024, that will be shared with the Prioritization Subcommittee and then with the full TC. Staff will add these projects to the end of the ACHD-compiled spreadsheet to start.

A few other notes from ACHD:

- Completed/Non-ACHD Projects. If a project is completed (or falls under the authority of another jurisdiction), we have moved if from your list to the bottom. We kindly ask that you remove completed projects from your prioritization lists. If you feel that a project has been identified for removal incorrectly, please provide additional information regarding the requested improvements.
- 2. **Re-Categorized Projects**. If a project was placed under the <u>wrong</u> category (Roads/Intersections vs. Community Programs), they have been moved to the bottom of the sheet so that they can be re-prioritized. It is <u>vital</u> that the projects are placed in the correct category. Our prioritization methodology has different criteria for the two categories.
- 3. **Duplications.** You will see notes in the 'ACHD Update' column regarding duplication of requests.
- 4. **Use the <u>forms provided</u>**. We do ask that you please use the **provided form & send the workable excel files back to ACHD staff** once your prioritization lists are complete. This

- helps us immensely with our own data management and staff's ability to respond more promptly/accurately with updates to your requests.
- 5. **Do Not Combine Your Lists**. We ask that the lists provided back to ACHD are in the formats (Non-programmed/programmed). Combining the two lists into one can cause confusion on what the rankings are for your projects.
- 6. The first column is left blank to provide your updated ranking. This document is a workable excel file, so please feel free to move projects around.

The full ACHD project webpage for the 2024-2028 IFYWP is here (as of the print deadline for this memo, it does not appear a 2025-2029 IFYWP webpage and Prioritization Tool/maps is active): https://engage.achdidaho.org/integrated-five-year-work-plan-ifywp?tool=map#tool_tab

Timeline: The TC Prioritization Subcommittee will meet later in January to give a thorough review of projects and make a recommendation to the full TC during the February meeting. On February 5th, it should be the goal of the TC to discuss and finalize project rankings for Council consideration. Staff will then share TC's priorities with Council later in February and into early March if needed.

Attachment: Programmed and Unprogrammed Projects
