Topic: Approval of Sole Source for Power Systems West

Recommended Council Action:

Approval of Sole Source for the purchased services of Generator Maintenance and Repair, and Generator Load Testing from Power Systems West. It has been determined that competitive solicitation is impractical, disadvantageous or unreasonable under the circumstances including where the compatibility of equipment, components, accessories, computer software, replacement parts or service is the paramount consideration.

Background:

Power Systems West has historically been the sole vendor to submit a bid for these Generator Maintenance and Repair, and Generator Load Testing Services.
