

MEMO TO CITY COUNCIL

Request to Include Topic on the City Council Work Session Agenda

From: Steve Siddoway, Director Meeting Date: May 23, 2023

Presenter: Kim Warren, Pathways Project Manager **Estimated Time:** 15 minutes

Topic: Presentation of Pathways Map Update for Council consideration

Recommended Council Action:

Review updated pathways map provided, along with methodology used to keep pathways map current.

Background:

The pathways map layer was last updated in October of 2020. Staff is proposing a 2023 pathways update for adoption. A digital map book of pathways is included for Council review, including highlighted changes made since the last update. Staff has also noted recently-completed and pending pathway projects in the map book.

In lieu of presenting each individual change to the pathways map, staff will present working methodology used to update this information. We ask that council consider this methodology and review the map additionally as/if desired.

Staff plans to return June 6 with a formal resolution request for adoption.
