

# MEMO TO TRANSPORTATION COMMISSION

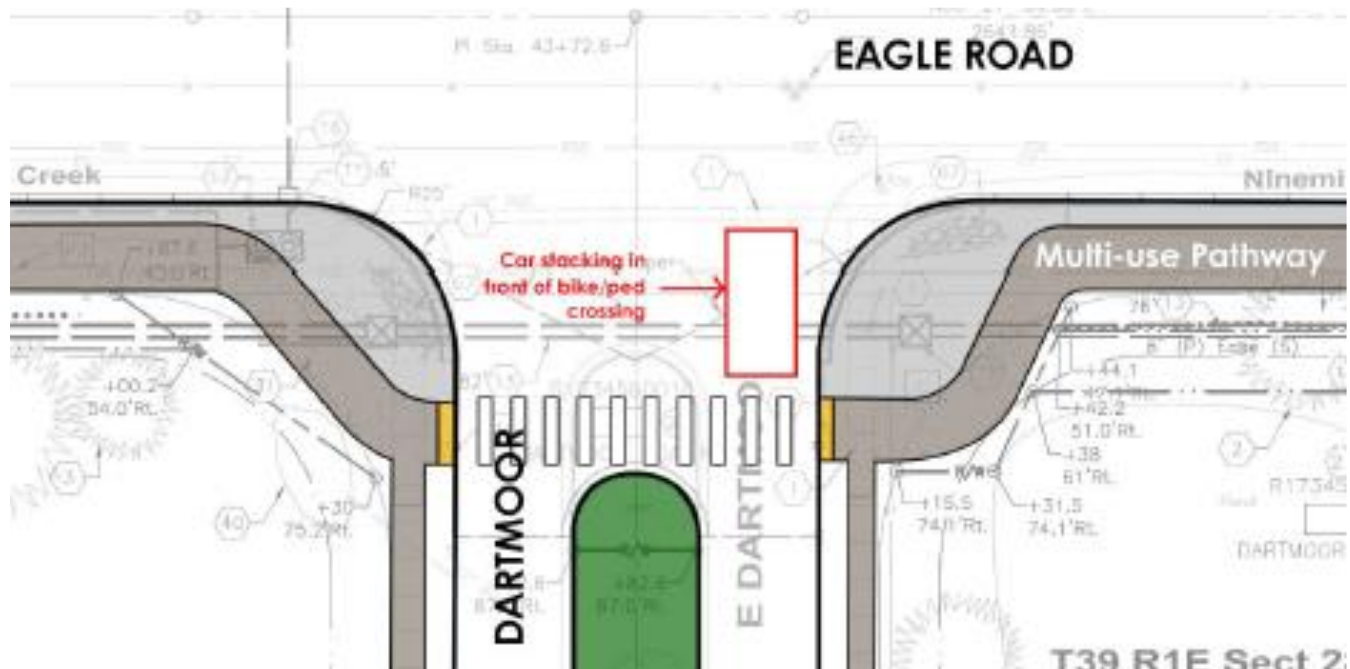

## Agenda Topic on the Transportation Commission Agenda

**From:** Miranda Carson, Coordination Planner

**Meeting Date:** August 7, 2023

**Topic:** Pathway Crossing at Local Streets

Recent construction and design of pathway crossings along local streets have seen pathway crossings set back from the intersection. This design puts the vehicle stop bar past the pathway crossing and requires pathway users to cross between vehicles when present. Below is an example of a crossing with this design.

ACHD staff is proposing a new Pathways policy that may have implications of requiring these setbacks. A presentation on that policy is attached.

The Transportation Commission has discussed the setback crossings in the past. Those minutes are attached.

City Council has also discussed with the ACHD Commission a need to find alternative options to the setbacks during a joint meeting October 27, 2020 and sent a letter in July 2021 to ACHD in regards to a setback crossing which is also attached.

The intent of this agenda item is to discuss how the setbacks that have been built have functioned thus far, discuss the new policy and it's implications in regards to setbacks, and get any recommendations from the Commission on any comments needed from the City to ACHD on the policy.
