I. PROJECT DESCRIPTION

Final plat consisting of three (3) buildable lots on 2.88 acres of land in the C-C zoning district. This is the second of two phases of development for this project.

II. APPLICANT INFORMATION

A. Applicant/Owner:

C. Representative:

Same as Applicant

III. STAFF ANALYSIS

Staff has reviewed the proposed final plat for substantial compliance with the preliminary plat and associated conditions of approval as required by UDC 11-6B-3C.2. There are six (6) buildable lots shown on the approved preliminary plat vs. three (3) buildable lots shown on the proposed final plat.

Because the number of buildable lots did not increase, Staff finds the proposed final plat is in substantial compliance with the approved preliminary plat as required.

IV. DECISION

A. Staff:

Staff recommends approval of the proposed final plat with the conditions of approval in Section VI of this report.
