**MEMORANDUM**

TO: Mayor Robert Simison and City Council

FROM: Garrett White, Recreation Superintendent

RE: Ustick & Venable Signalized Intersection Design

**Background**

With the construction of the new Community Center, the expansion of Settlers Park, and nearby developments, a traffic signal at the intersection of Ustick Road and Venable is warranted. To facilitate the construction of this signalized intersection, the City has begun developing a Cooperative Development Agreement (CDA) with ACHD and Brighton. This budget amendment represents the City's proportionate share of the project and includes design costs and geotechnical services.

Approval of this budget amendment will allow the design phase of the intersection improvements to begin once the Cooperative Development Agreement (CDA) is finalized. The design process is anticipated to take approximately nine months. To get the traffic signal operational concurrent with the opening of the new Community Center, it is necessary to begin design work as soon as possible.

**Objective**

To have Council approve the budget amendment for the City's proportionate share of the project.
