Community Resource Center

Construction continues to progress, and the project remains on track to meet the December 1, 2026 grant deadline. The culvert at Easy Street has been installed, fulfilling a condition of the land sale. As part of the sale, Mark Gregg required access from U.S. 441 via Easy Street to his remaining property adjacent to the Community Resource Center.

Former Fire Station Lease

The tenant has requested an additional 30 days to secure financing. The proposed amendment would extend the financing deadline by 30 days, and the gym's opening is expected to move back. The rent and other financial terms would remain the same, and staff anticipates no other material changes to the lease.

No Commission action is requested.
