### MEMO: Mineral Population and Growth Projections

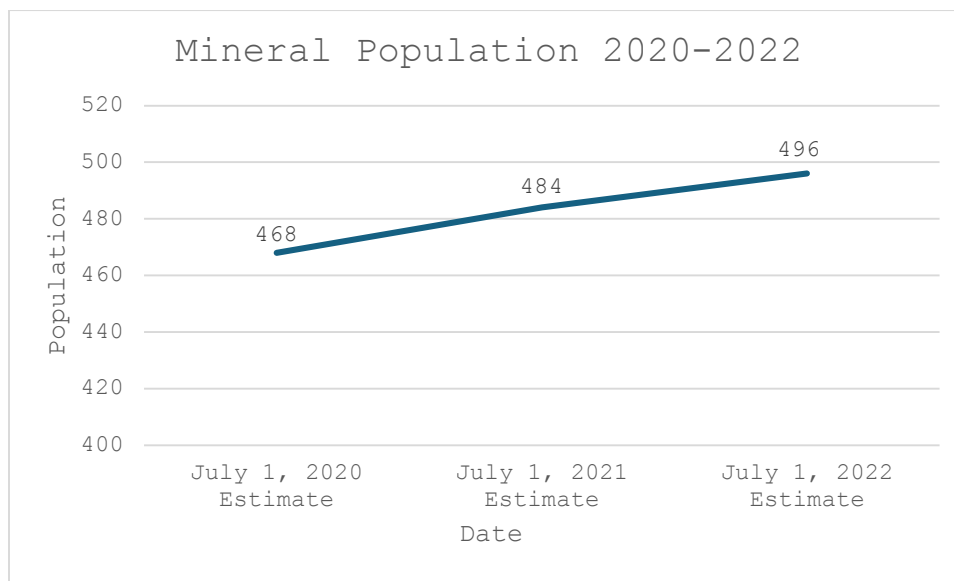

The purpose of a Comprehensive Plan is to plan for the future needs of the Town. Population growth projections can help the Town assess what types of services or infrastructure may be needed to proactively plan for the future.

To estimate future population projections, TJPDC staff looked both at historical growth trends and reviewed population estimates from the US Census Bureau and population projections from the Weldon Cooper Center for Louisa County. These approaches provide a low and high estimate for the future 2050 population of the Town of Mineral.

The below graphs show estimates over time of Louisa County's population and Mineral's population produced by the US Census Bureau.

	Louisa County Population	Town of Mineral Population
2010	33,153	467
2020	37,798	468
2021	39,032	484
2022	40,116	496
% Change 2010-2022	21.0%	6.2%

The University of Virginia Weldon Cooper Center produces population projections for Virginia and its composite counties and cities. Although the Weldon Cooper Center does not provide population projections for most towns, we can consider the population projections for Louisa County, which are displayed below. From 2022 to 2050, the Weldon Cooper Center forecasts that Louisa County will grow from 39,725 to 52,706 – an increase of 32.7%. Note that the below data is from the Weldon Cooper Center estimates, which are different from the US Census estimates presented above.

Year	Louisa County Population
2022	39,725
2030	41,436
2040	46,722
2050	52,706

If the Town of Mineral grew at the same rate as Louisa County’s forecast, the Town would grow from 496 in 2022 to 658 in 2050 – an increase of 162. This is likely a high assumption. Historically, Mineral’s growth has lagged that of the County, though the growth rate in Mineral has increased in the last couple of years. If we assume growth continued at the same pace as from 2010 to 2022 in Mineral, then the population of Mineral would increase to about 571 in 2050.

### Demographics

The information on Mineral’s demographics as collected by the US Census Bureau is shown below. Due to the low population of Mineral, many of these numbers are subject to high margins of error. Additional information can be accessed at [data.census.gov](https://data.census.gov).
