Exempted divisions of land include those listed in the definition of subdivision in Section 17-2-10 of this Chapter.

(b) The Town Council hereby establishes an exemption plat process for the Bolts Lake Property. (b) Subsection 17-5-70(f)(3) is amended to read as follows:

(3) Water supply options. A review and analysis of all viable options for water supply, indicating the relative benefits of each, shall be submitted. (6) Within fifteen (15) business days of receiving the application, the planning director will confirm and advise the applicant in writing whether the application is complete. If the application is not complete, the applicant may supplement the application and the planning director will provide an updated written determination of completeness as otherwise provided herein.

(7) Within thirty (30) business days after the date on which the application is determined complete, the planning director, after consultation with appropriate staff and referral agencies, if any, will complete review of the proposed exemption plat to confirm whether it complies with the following requirements:

A. It adheres to the format for final plats as described in Section 17-6-40(b), excluding subparagraphs (3), (4) and (9); provided, however, all surveying data shall be tied to primary control points. With respect to subparagraph (8)d, the certificate of ownership does not need to include any language of dedication. With respect to subparagraph (8)e, the certificate of title will be executed by a title company and will reference liens and exceptions to title as reflected in a specifically identified title commitment. The exemption plat shall include a certificate that taxes on the property have been paid.

B. It contains a certificate to be executed by a professional land surveyor, as defined in C.R.S. 38-51-102(16), that the proposed exemption plat was prepared in accordance with C.R.S. 38-51-106, which certificate will be deemed to satisfy the requirement of Section 17-6-40(b)(8)f.

Such compliance will be demonstrated by the exemption plat depicting an existing or proposed road that would physically connect each proposed exemption plat parcel to a public road, identifies whether legal access to the exemption plat parcels is (or will be) granted by the exemption plat or by a separate instrument, and describes by reference to a recorded, or to be recorded, access easement agreement required pursuant to subparagraph (3)D above.

E. It contains the following statements and acknowledgements:

i) Land Not Developable. The landowner(s) of the exemption plat parcels created pursuant to this exemption plat and other parties having an interest in such exemption plat parcels

hereby acknowledge that no development is permitted on such exemption plat parcels prior to recording of an approved final plat for the land included in this exemption plat. This exemption plat and the exemption plat parcels created pursuant to this exemption plat only provide for the ability to legally convey such exemption plat parcels pursuant to Section 17-6-80 of the Town Code. Subsequent applications for preliminary plat(s) and final plat(s) will be required to be processed and approved, and such approved final plat(s) must be recorded, in order to create developable lots and other parcels within the exemption plat parcels created pursuant to this exemption plat.

- ii) Municipal Water Service. The landowner(s) of the lots, tracts, blocks or parcels created pursuant to this plat and other parties having an interest in such hereby acknowledge that the Town will not provide, and will have no obligation to provide municipal water service to the lots, tracts, blocks or parcels or any improvements located within the lots, tracts, blocks or parcels. In consideration of the Town's approval of this plat, the landowner(s) and other parties having an interest in the property that have executed this plat, by so executing this plat, and all successor owners of the lots, tracts, blocks or parcels created pursuant to this plat or other parties having an interest therein, by taking title to or acquiring an interest in such, knowingly and intentionally waive any and all right to disconnection of the property arising under C.R.S. § 31-12-119 and based on failure to provide municipal services on the same general terms and conditions as the rest of the Town receives, to the extent based on the Town not providing the lots with municipal water service as described herein.

(8) Upon completion of the foregoing review of the proposed exemption plat, the planning director will either approve, approve with conditions, or deny the proposed exemption plat, and will provide written notice of such determination to the applicant.

A. If the proposed exemption plat is approved, the applicant will prepare and cause to be executed a mylar in form suitable for recording and, upon execution by appropriate parties, including the Town, the same will be recorded.

B. If approved with conditions, the notice letter will specifically describe the conditions required to be satisfied prior to preparation of mylars for execution and recording as described in clause A above. The applicant will have a period of three (3) months to revise the proposed exemption plat

to accomplish satisfaction of the stated conditions and resubmit to the planning director for review and confirmation in accordance with subparagraphs (5) and (6) of this Section.

C. If the application is denied, the notice letter will specifically describe the deficiencies in the application and/or proposed exemption plat. At any time after receipt of a notice of denial, an applicant may resubmit such application, with such modifications as may be appropriate to address the specified deficiencies, for reconsideration as a new application in accordance with the requirements set forth in this Section.

(9) The planning director's processing, review and final action with respect to exemption plat applications will be exempt from any posting and public notice requirements under the Code, including but not limited to Section 16-21-610 of the Zoning Code.
