Do I Need this Form?

Certificate of Appropriateness means a certificate issued by the Commission authorizing any proposed repair, restoration. Alteration, construction, relocation, or demolition of a historic property, or an element within a historic district pursuant to Chapter 19 of the MMC.

Before carrying out any new construction, alteration, relocation, or demolition involving the exterior of any historic property, or contributing property within a historic district, applicants and/or owner(s) must submit and obtain approval for an application for the proposed work by the Planning Department and HPC under this Article. The application shall include anything HPC deems necessary, including, without limitation and as applicable, a description of the type of work proposed and its effect or impact upon the historic property or historic district and plans and specifications showing the proposed exterior appearance, with finishes, materials, samples of materials, and architectural design and detail. The application shall not relieve the applicant from the responsibility to apply for any other permit required by the MMC.

HPC Certificate of Appropriateness Review:

- a. HPC shall: (1) Approve the applications; (2) Approve the application with conditions; or (3) Deny the applications.
- b. Any decision of HPC to approve the application or approve the application with conditions shall be included on an agenda of the Town Council within thirty (30) days. The Town Council may call up for review any final decision reached by HPC. After review, Town Council may affirm, deny, or affirm with additional conditions the decision of HPC. No Certificate of Appropriateness shall be issued before HPC's decision has been included on an agenda of the Town Council.
- c. If HPC approves or approves the application with conditions, HPC shall issue a Certificate of Appropriateness to the applicant and a copy will be placed in the appropriate Town records. If approved with conditions, such conditions shall be stated in the Certificate of Appropriateness.
- d. If HPC denies the application, HPC shall notify the applicant in writing and a copy will be placed in the appropriate Town records.
- e. The application form shall have a section for HPC to set forth HPC's reasons for the approval, approval with conditions, or denial of the application.
- f. HPC may issue an order continuing the application process if HPC would like additional information necessary to make a decision. If the hearing is continued, the time, date, and place of the continuation shall be established and announced to those present when the current session is to be adjourned. In no case shall a hearing be continued more than forty-five (45) days without the express consent of the applicant.
- g. The applicant and/or owner(s) may resubmit an amended application that takes into consideration the recommendations of HPC.
- h. If an application for a Certificate of Appropriateness is denied after final action upon the application by HPC, no person may submit a subsequent application for the same Section 19-5-10(a) activity within one (1) year from the date of the final action.
- i. If a Certificate of Appropriateness has been issued on the permit application and the proposed work conforms thereto, the Town shall process the application in accordance with all other applicable provisions of the Code. If no Certificate of Appropriateness has been issued, or if the Town determines that the permit application does not conform, the Town shall not approve the permit application and shall not issue any other permit until a Certificate of Appropriateness has been issued and the permit application conforms thereto.

Section 2 - Impacts:

Detail the effects or impacts on the historic property or historic district that this project would cause.

As outlined in the Project Summary referenced above, the plan is to disassemble, move, reassemble and eventually finish out the barn in its new location. The preservation of the historic character of the barn is paramount to us. Although it will sit on a new concrete foundation, we will otherwise use existing materials (roof, logs, etc.) when we reassemble the barn. Given that the barn sits on slope in the current location and some of the bottom logs will need to be replaced as we level the base. We have identified a source of similar vintage logs that we can use to add or replace logs as needed. We believe that the replacements will blend in with the existing logs, especially over time. With regard to the roof, we note that structural shoring up may be required. If so, we will do it in a style appropriate for the barn while accentuating the original roof materials from an "inside view up" as much as practical.

Please Provide:

- Plans and specifications showing proposed exterior appearance:
 - Finishes
 - Materials
 - Samples of Materials
 - Architectural Design and Detail
