Monthly Report for May 2024

To: Adrian Garcia, Fire Chief
From: Richard A. Cruz, Deputy Chief
Re: Career Development Section Report for May 2024

The training topics for the month were Airway Management for the EMS portion, and Building Construction for the Fire portion. Each topic counts for 2 hours of continuing education hours for the yearly total. The trainings were posted on our online Training software and each personnel completed the trainings on their assigned shift days.

EMS training has been our top priority this month. We have been training around the clock to keep our skills sharp. We have been utilizing our newly purchased training equipment to be able to perform hands-on skills and train.

A few of our Paramedic staff attended an EMS Conference in Port Aransas, TX. There, they were able to take several classes on trending issues in the emergency medical services realm. They were also part of discussions held on upcoming trainings and trends through our state regarding emergency medical response.

The CDS held a Texas Commission on Fire Protection – Fire Service Instructor course at our Central Station. The course is a state approved, 48-hour course. Six of MFD personnel were in attendance, but also 12 more students from surrounding agencies. This course allows students to obtain the Credentials to teach state approved courses internally and externally.

The US Fish & Wildlife service held a Wildland Refresher course for our crews. This course enabled our firefighter crews, who are certified in Wildland firefighting, to obtain the necessary continuous education hours set forth by the state. Topics included: weather predictions for the summer, fire conditions, emergency escape routes, hose deployment and water conservation.

The CDS held a few classes for the Regional Fire Academy Cadets. First class was Academy orientation, then CPR/AED and the last was Fire Service History. MFD is a crucial partner in the Regional Academy teaching cadre. Our training staff are able to teach and influence the future firefighters of our community and assist them in their new endeavors.

All shift personnel did a walkthrough of Mission Regional Medical Center. The purpose was to help identify any hazards that are present at location. The security director gave the tour and explained the different hazards and their severity if there were to be any accidents on location. This helps crews better plan and prepare for emergency incidents at location.

Crews at their respective stations also have been doing in-service training as single-engine companies. Training has included: SCBA's, search and rescue, rescue equipment familiarization, ropes and knots, pumping fire apparatus, hose practices, ladders, and other topics.

MISSION HISTORICAL MUSEUM

Departmental Report May 2024

"It's a side of museums that many people don't see and sometimes don't understand when they see it in your budget. It's something that happens out of the way and it's not flashy but we're ensuring the long-term health of the cultural legacy of the area."
