Rio Grande Valley™

## Regional Security Operations Center

RSOC OVERVIEW

The Texas Department of Information Resources (DIR) partners with public universities to operate **Regional Security Operations Centers (RSOCs)** to help protect government entities from cyber threats, such as hacking, malicious intrusion attempts, malware, data breaches, and much more.

RSOCs provide **FREE MONITORING AND ALERTING** using state-of-the-art tools and equipment that covers endpoints, servers, and systems.

RSOC SERVICES

▷ **Real-time network security monitoring** to detect and respond to network security events that may jeopardize Participating Entities and the residents of this state

▷ **Alerts and guidance** for defeating security threats

▷ **Immediate response** to counter security activity that exposes Participating Entities and the residents of this state to risk including remote and onsite cybersecurity incident responders

▷ **Policy and Planning** to provide guidance on cybersecurity policies and plans to improve the cybersecurity posture of Participating Entities

▷ **Cybersecurity educational and awareness services** to assist participating entities in establishing and strengthening security practices, including developing model policies, and planning to assist Participating Entities in maturing their cybersecurity posture.
