Subject: Labor Hour Increase

Dear Valued Customer,

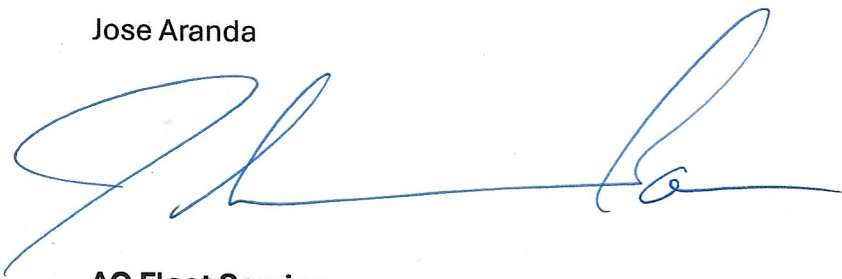

We are glad to count on you as a valuable customer of AG Fleet Services for all your fleet maintenance and repair needs. AG Fleet Services has been growing in the last year and to continue providing high-quality, timely, and professional maintenance/repair services we are in need to change the hourly rate to focus on new repair software, scanners updates and special tools.

Effective April 1st, 2025, the new hourly rate for heavy on road/off road equipment will be \$165.00 an hour.

We are happy to have you as a loyal customer and thank you for your understanding and support! If you have any questions or concerns, please don't hesitate to contact us.

Sincerely,

Jose Aranda
