

City of Mission  
1201 E. 8 th Street  
Mission, Texas 78572

The Mission Lion's Club is exploring the possibility of installing an Automated External Defibrillator (AED) at Lion's Park. The key reason we would like to go forward with this project is that it would address a very vital medical problem, sudden cardiac arrest. Our hope is to make Lion's Park safer.

Our guest speaker, Brenda Lodermeier from Advocates for Health, has spoken to our club twice to address what this would entail. The price for installation would be \$7000, which Lions would absorb and \$600 yearly maintenance fees. We would be responsible for paying the fees for the first year then the city would take over the maintenance fees.

In order for Mission Lion's Club to continue bringing this project to fruition, we would need your guidance and acceptance to become our partner in order to make Lion's Park the first in our state of Texas to be equipped with an AED.

Thank you for your time and we hope to hear from you soon.

Lion Kathy Detweiler

Mission Lion' Club President
