**Subject:** Speed bumps

Name: John Zeller  
Email: [Johnzeller@kmcnw.com](mailto:Johnzeller@kmcnw.com)

Message: Why in the world are you spending money on speed bumps at stop signs? Also, why do we need a speed bump at the arboretum? These speed bumps will make it very difficult to plow snow. Snow berms will make good speed deterrent. John Zeller 7/18/2025

Seems like a huge waste of money and resources. Could have been fixed alot easier and cheaper than this dumb ass plan. Did you guys find this answer on a cereal box

**Subject:** Big Trouble on Marguerite. Rd

The last few afternoons, I am sitting on our front porch 3015 N Marguerite and the amount of cars flooding this narrow side street is completely unsafe. The street is very narrow and the residents of this block have to park on both sides of the street. There is traffic going both directions almost side swiping cars, dodging people pets and pedestrians, and almost hitting each other. It's not even just small vehicles but the large semi-trucks and huge work trucks with long trailers.

I am a fan of the speed bumps but people are just going over them, hitting the gas and then just FLYING down the street likely cause its stressful and they want to get home. All the neighbors are getting really upset.

Is there anything we can do? Some of the neighbors are literally outside yelling at drivers/cars using this road as a "detour" to "F OFF" and not use our road as a detour. I am not sure how I can help reduce this conflict.

Lisa, can you please share with those who may be able to help with this issue?

Thank you,

Savannah Wu
