REQUEST FOR CITY COUNCIL DISCUSSION

Item -2026 Budget/Levy Considerations Discussion

Prepared By: Brian Grimm, Finance Director

Meeting Date: June 16, 2025

<u>Item:</u> After our audit was presented in May, it seems to be a good point to discuss upcoming 2026 budget and levy considerations. City Staff is working on preliminary levy scenarios and an overall preliminary budget to be brought to City Council at the August worksessions. Staff wanted to get Council feedback on the front end as to what an acceptable preliminary levy framework/target would look like.

I have attached several pages of financial information to help with the discussion. The first two are related to the tax levy. Page one is the final 2025 certified tax levy. The second page is an excerpt from our audit presentation on taxes per capita.

The next page is the 2025 General Fund Summary Page with the 2024 actual numbers updated in it. This is to illustrate where we project to be at the end of 2025 for fund balance dollar amount as well as a percentage of general fund expenditures. In addition to that is another slide from our audit that shows how the City of Minnetrista current expenditures on a per capita basis compares to some of our neighboring cities.

Lastly, is a draft/proforma first run at a 2026 financial management plan summary page. This was done at a high level and is used to show how some of the components of the 2026 levy and 2026 general fund along with debt and special levies may/could look like.

For purposes of this discussion, there will be 3 categories of items to talk about regarding both the general fund operations and the associated overall tax levy impacts:

- 1) Items that City is committed to
- 2) Items to be addressed
- 3) Items the City has been doing annually
 - 1) Items that the City is committed to (general fund impact)
 - a. Compensation (non-union adjustments and union contracts) estimated 4% increase to levy (\$270,000)
 - **b.** Fire Contracts/Services)— based information to date Estimated impact \$140,000 (2% of levy)
 - **c.** Cafeteria Plan/other benefits Estimated impact \$35,000 (.5% of levy)
 - **d.** Inflationary impacts Estimated impact \$35,000 (.5% of levy)

Mission Statement:

Subtotal for this area - \$480,000 (projected 7.0% increase to levy)

- 2) Items to be addressed (general fund impact)
 - a. Addressing use of fund balance in 2025 for 2026 and beyond For 2024 we are projecting using about \$40,000 as part of our 2025 adopted general fund budget. We need to look at getting back to a balanced budget for 2025 based on our fund balance percentage. Estimated net impact .5%

Subtotal for this area – \$40,000 (projected .50% increase to levy)

Total projected for general fund combined - \$520,000 (potential 7.5% increase to levy)

- 3) Items the City has been doing:
 - **a. Roads**: The annual roads levy currently sits at \$575,000 for 2025. There was a roughly \$350,000 annual debt levy that came on in 2024 related to the 2023 road projects. For a total of \$925,000 in roads levy dollars for 2025. Previously the City had been adding \$100,000-\$150,000 annually to the road fund levy. If we do this again in 2025 it would be about a 1.5-2.0% levy impact.
 - b. Capital Equipment Plan For the last few years, the City has been raising the levy for funding the Capital Equipment Plan by \$50,000. One of the main reasons for this is to try and get away from using equipment certifications. The levy for this sits at \$200,000 right now. City Staff is looking at initial CIP equipment plan drafts and will bring more information to City Council on funding this through, combination of cash levy, equipment certificates, and other financing sources. Depending on if it would be recommended to up the cash levy by \$50-\$100K and/or do an equipment certificate it could be an impact up to \$150,000-\$200,000 for 2026 estimated impact 2.0-3.0% levy increase.

Total potential impacts – When adding the above numbers from the above three sections together the potential levy increase from an initial draft looks to be in the \$770,000-\$870,000 range. Which would be a range of about 10-12%. For reference, last year's levy increase was a 9.4% increase when comparing 2025's final levy to 2024 final levy.

Recommended City Council Action: Have a discussion on 2026 budget/levy considerations. Get feedback from City Council on what is an acceptable number for the 2026 preliminary tax levy

Does Recommended Action meet City Goals/Priorities? x Yes No Explain: Adapt to a changing economy – monitor budget to actual numbers

Special levy notes — A portion of the debt service tax levy as established in the bond documents for the 2014 B bond is being reduced as it is being reimbursed/paid by the City of Saint Bonifacius. The debt service tax levy as established in the bond documents for the 2012A Bond is being cancelled as the debt obligation will be paid through MSA dollars in lieu of tax levy. The principal and interest payments as established in the bond documents for the 2020A General Obligation Revenue bonds are being are paid for with sufficient funds being collected through water fund revenues to pay the required debt service. The debt service tax levy for 2023 for the 2020A Equipment Certificates is being approved at the amount listed above to cover those principal and interest payments. The small difference is covered by levies from previous years. A portion of the debt service tax levy as established in the bond documents for the 2017A bond is being reduced by fund balance on hand. The 2024 A Equipment Certificates is for bonds that are being issued later in 2024. With the first tax levy scheduled for 2025 for P & I payments. The 2014 A Bonds were paid off during 2024 so a levy is no longer needed for 2025.

A certified copy of this resolution shall be submitted to the County Auditor of Hennepin County, Minnesota, by Monday December 30, 2024.

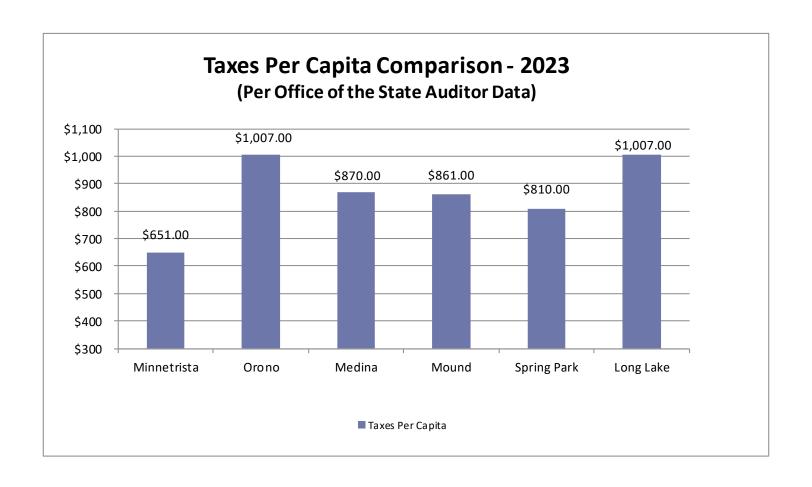

This resolution was adopted on the 2nd day of December 2024, by a vote of <u>5</u> Ayes and <u>0</u> Nays.
