

EXECUTIVE SUMMARY

This study was performed to update the City of Montgomery's (the City) Water and Wastewater System Impact Fees that were previously completed back in 2023. Water and wastewater system improvements necessary to serve the 10-year (2035) build-out and ultimate system needs were evaluated. Based on the City's 10-year growth projections and the associated demand (consumption) values, 3,923 additional service units will need water and wastewater service by the year 2035. Based on the additional service units and the recoverable capital improvements plans, the City may assess a maximum of **\$4,788** per ESFC for water and sanitary sewer combined, which is a 17% increase to the 2023 impact fees.
