

Montgomery Planning and Zoning Commission
AGENDA REPORT

Meeting Date: 07/20/2021	Budgeted Amount:
Department: Administration	Prepared By: Dave McCorquodale

Subject

Consideration and possible action regarding a recommendation from the Planning & Zoning Commission to the City Council on a variance to Section 78-96(b) of the City Code requiring all parking lots to be paved with asphalt or concrete.

Recommendation

Consider the information included in the request and the opinion of the City Engineer. The motion will be to recommend to City Council that they approve or deny the variance. Include the most important points of your decision in the motion to capture the full opinion of the Commission.

Discussion

Cornerstone Community Church has recently purchased the property and plans to use the facility as their new church home. The previous occupant was a non-profit organization who utilized the facility for several years as a counseling center. The parking lot has been gravel/crushed concrete for a number of years and does not appear to have ever been a paved surface. Included for your review are site photos and a survey of the property showing where the church plans to position their parking lot, which is mostly where the existing parking lot is located.

The property has generally mild cross-slopes, but none that would present a unique situation that other developments in the City do not have to deal with. In conversations with the applicant, City staff feels the primary reason for the request is an economic one. For reference, the criteria for granting a variance to the Subdivision Ordinance is included below:

Sec. 78-28. - Variances.

When a subdivider or developer can show that a provision of this Chapter would cause unnecessary hardship if strictly adhered to, or where because of some condition peculiar to the site or the unique nature of the development compliance with this chapter is not consistent with or required by good engineering and planning practices, and if in the opinion of the City Council, Planning and Zoning Commission and the City Engineer, a departure from this Chapter may be made without destroying the intent of this Chapter, the City Council may authorize a variance.

Because economic hardship is not identified as a criterion for granting a variance, City staff does not find a justifiable reason for the Commission to recommend the variance be granted.

Approved By
