Subject

Consideration and possible action regarding the relocation of a Kohler 60KW generator to Lift Station 6.

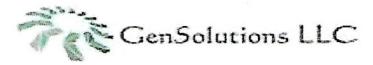

Description

The city owns a Kohler 60KW generator that was previously onsite at the former location of Lift Station 1 (Chick-fil-A site). The generator was stored with the intent of placing it at another Lift Station in the future. We have determined that Lift Station 6 has the greatest need for permanent backup power. This is an all-inclusive quote that includes all work needed to move it onsite and hard wire it in place. The quote to move and wire it in is \$14,150.00 They also provided a quote of \$4,431.00 for replacement of the automatic transfer switch if it is needed which is a high probability.

Recommendation

Recommend approval of the proposals from GenSolutions, LLC.
