Consideration and possible action on a Resolution of the City Council of the City of Montgomery, Texas, authorizing the Interim City Administrator to enter into an agreement with the City of Montgomery Public Works Department to utilize the City of Montgomery American Rescue Plan funds; providing for findings of fact, repealer, severability, effective date, proper notice and meeting.

**Recommendation**

Adopt the resolution as presented.

**Discussion**

The attached resolution authorizes the Interim City Administrator to enter into an agreement with the City of Montgomery Public Works Department to utilize the ARPA funds for the following two capital improvement projects:

- **College Street Drainage Improvements, estimated cost of \$250,000**  
These ARPA funds will be used to construct a drainage system along the City of Montgomery's College Street. With the impact of flooding along the street, the City will be able to effectively channel the flow of flood water with newly constructed drainage ditches. As both an emergency relief mitigation response and general government service, this project will provide the City's residents with floodwater control and abatement.
- **Water Plant No. 3 Booster Pump Addition, estimated cost of \$125,000**  
These ARPA funds will be used to purchase and install a booster pump at the City of Montgomery's Water Plant No. 3 to improve the water pressure within the City's water system. As a general government service and infrastructure need, the booster pump will improve the delivery of drinking and potable water to the City's water system.

The attached MOU, as required Obligation Interim Final Rule (Obligation IFR), sets forth the understanding between the City and the Other Party (i.e., Public Works Department) regarding the Purpose and/or Scope of Work to be completed with the SLFRF funds.
