Consideration And Possible Action on A Proposed Cost Share with MISD for the CTE Center Waterline Extension

**Recommendation**

**Discussion**

Per our February 27<sup>th</sup> Workshop, in your packets is a breakdown of the complete cost to extend the waterline within the CTE center project to an appropriate point in which to continue the public waterline loop.

MISD is requesting a 50/50 split on the cost so the City of Montgomery would be responsible for providing \$112,176.94 toward the waterline extension.

The funding source within the current budget is TBD.
