

Montgomery MEDC
AGENDA REPORT

Meeting Date: August 20, 2024	Budgeted Amount: \$69,115
Department: N/A	Prepared By: Dave McCorquodale

Subject

Consideration and possible action on the final design documents as prepared by MERJE Design for the City of Montgomery, Texas Wayfinding Program.

Recommendation

Staff recommends reviewing the documents and acting as you see fit.

Discussion

The MEDC began a city-wide wayfinding project with Merje Design in late 2022/early 2023. The project consultants have submitted a 75%-complete project drawing set for review. Staff has reviewed and provided several small formatting comments to the design team that are immaterial to the project design.

The consultant will not be in attendance at the meeting. Staff will answer questions as possible at the meeting and get answers from the consultant to share with the Board.
