I.

The name of the proposed District shall be MONTGOMERY COUNTY MUNICIPAL UTILITY DISTRICT NO. 215 (herein the "District"). There is no other conservation and reclamation district in Montgomery County, Texas, with the same name.

II.

The District shall be created and organized under the terms and provisions of Article XVI, Section 59 of the Texas Constitution and Chapters 49 and 54, Texas Water Code, together with all amendments and additions thereto.

III.

The District shall have all the rights, powers, privileges, authority and functions conferred by and be subject to all duties imposed by the Texas Water Code and the general laws relating to municipal utility districts. The District shall contain an area of 388.5055 acres of land, more or less, situated in Montgomery County, Texas, described by metes and bounds in **Exhibit A-1**, **Exhibit A-2**, **Exhibit A-3**, and **Exhibit A-4**, attached hereto and made a part hereof for all purposes (the "Land"). All of the land proposed to be included within the District is within the corporate boundaries of the City of Montgomery. All of the land proposed to be included may properly be included in the District.

IV.

The Petitioner holds fee simple title to the Land. The Petitioner hereby represents that it owns a majority in value of the Land which is proposed to be included in the District, as indicated by the certificate of ownership provided by the Montgomery Central Appraisal District.

V.

The Petitioner represents that there are no lienholders on the Land other than Conservative Investments, Inc. and that there are no residents on the Land.

VI.

The general nature of the work proposed to be done by the District at the present time is the purchase, design, construction, acquisition, maintenance, ownership, operation, repair, improvement and extension of a waterworks and sanitary sewer system for residential and commercial purposes, and the construction, acquisition, improvement, extension, maintenance and operation of works, improvements, facilities, plants, equipment and appliances helpful or necessary to provide more adequate drainage for the District, and to control, abate and amend local storm waters or other harmful excesses of waters, all as more particularly described in an engineer's report filed simultaneously with the filing of this petition, to which reference is hereby made for more detailed description, and such other purchase, construction, acquisition, maintenance, ownership, operation, repair, improvement and extension of such additional facilities, including roads, parks and recreation facilities, systems, plants and enterprises as shall be consistent with all of the purposes for which the District is created (the "Project").

VII.

There is a necessity for the improvements above described. The City will annex the 279.29 acres, the 98.75 acres, and the 0.1615 acres into its corporate boundaries. There is not available within the area proposed to be included in the District an adequate waterworks system, sanitary sewer system, drainage and storm sewer system, roads, or park and recreational facilities and the health and welfare of the present and future inhabitants of the District and of the areas adjacent thereto require the purchase, construction, acquisition, maintenance and operation of an adequate waterworks system, sanitary sewer system, and drainage and storm sewer system, roads and park and recreational facilities.

IX.

A preliminary investigation has been made to determine the cost of the proposed District's waterworks system, sanitary sewer system, and drainage and storm sewer system projects, and it is now estimated by the Petitioner, from such information as it has at this time, that such cost will be approximately \$44,200,000.

WHEREFORE, the Petitioner respectfully prays that this petition be properly filed, as provided by law; that all interested persons be notified of the procedures for requesting a public hearing on this petition as required by 30 Tex.
