

Gas Code Changes:

19-305. Connection charges. ~~The city will provide a tap and up to fifty feet (50') of new service line without charge to new residential gas customers within the current gas system service area who apply for gas service and have a natural gas appliance properly and permanently installed in their residence or accessory structure. After the first fifty feet (50'), the residential customer will be charged one dollar and fifty cents (\$1.50) per foot for installation of additional service line. Any residential customer who receives a tap and fifty feet (50') of service line from the City of Mt. Pleasant free of charge must maintain gas service for twelve (12) consecutive months. Discontinuing service prior to the expiration of twelve (12) consecutive months will result in the customer being charged for the cost of the tap and service line at a prorated monthly rate.~~

~~——— The city will provide up to fifty feet (50') of new service line for new commercial gas customers within the current gas system service area who apply for gas service and have a natural gas appliance properly and permanently installed at their property. After the first fifty feet (50'), the commercial customer will be charged one dollar and fifty cents (\$1.50) per foot for installation of additional service line. Any commercial customer who receives fifty feet (50') of service line from the City of Mt. Pleasant free of charge must maintain gas service for twelve (12) consecutive months. Discontinuing service prior to the expiration of twelve (12) consecutive months will result in the customer being charged for the cost of the service line at a prorated monthly rate.~~

~~——— Commercial customers who apply for gas service will also be charged a fee for the installation of a new tap and new regulator. The tap and regulator fees shall be set by the city manager and the gas inspector, based on the estimate of the monthly use of gas.~~

The city will provide a gas connection, or tap, and a ¾" gas meter at the cost of three-hundred dollars (\$300) to new residential gas customers within the current gas system service area who apply for gas service and have a natural gas appliance properly and permanently installed in their residence or accessory structure. The cost of new service line will be five (\$5.00) per foot.

The city will provide a gas connection, or tap, and a ¾" gas meter at the cost of three-hundred dollars (\$300) to new commercial gas customers within the current gas system service area who apply for gas service and have a natural gas appliance properly and permanently installed in their residence or accessory structure. The cost of new service line will be five (\$5.00) per foot.

All customers requesting a larger gas meter or tap will have to submit to the Utility Department for review. Upgraded tap, service line, and meter fees shall be set by the city manager and the gas inspector, based on the cost of equipment, labor, and materials furnished.

All taps, meters, regulators, and service lines, including those installed at the cost of the customer, shall become the property of the municipal natural gas system. Service installation for old customers at new locations will be handled as a new connection; however, no charge will be made if a service connection at a new location exists.

19-306. Customer maintenance charge. ~~A customer maintenance charge of five dollars (\$5.00) per month will be required of all domestic customers. This fixed monthly charge is the basic fee for the customer/user gas service. It does not fluctuate with usage and does not include any consumption. This fee is intended to cover Mt. Pleasant Gas System's costs of maintaining and keeping customer/user account records active (data processing, meter reading, billing, etc.).~~

A customer maintenance fee will be issued to residential, commercial, and industrial customers. This fixed monthly charge is the basic fee for the customer/user gas service. It does not fluctuate with usage and does not include any consumption. This fee is intended to cover Mt. Pleasant Gas System's costs of maintaining and keeping customer/user account records active (data processing, meter reading, billing, etc.). Customer maintenance fees are as follows:

Customer Type	Fee Amount
Residential	\$5 per month
Commercial	\$25 per month
Industrial	\$75 per month

19-307. Schedule of rates. (1) Rates to Mt. Pleasant Gas System “firm” customers for natural gas will be calculated based on the formula set forth below. “Firm” customers is intended to mean those customers/users who are guaranteed delivery of natural gas except in cases of force majeure or system emergencies and include primarily residential customers/users but also encompasses other types of customers/users. As to such “firm” customers/users the natural gas rate (charge) for such customers/users is the cost to Mt. Pleasant Gas System billed to the Mt. Pleasant Gas System by the natural gas supplier based upon the Natural Gas NYMEX Product Cost Index plus Pipeline Charges, Storage and other Pipeline Related Fees, a 3% Gas Fuel Delivery and Unaccounted For Charge, a 10% Reserve Fund Charge, Mt. Pleasant Gas System Cost of Operation, Maintenance and Administration all of which establishes the delivered cost to Mt. Pleasant Gas System customers/users on a per Dekatherm basis (DTH – an energy measurement). The Dekatherm charge is then converted to an energy measurement in Million Cubic Feet (MCF) resulting in the rate/charge invoiced to the customer/user in MCF's. Stated another way, the rate/charge is based upon the following formula:

Product Cost (Including discretionary portion of Monthly Fluctuating Gas Discount)

+	Pipeline Charges, Storage, and Other Pipeline Related Fees
+	3% Gas Fuel Delivery and Unaccounted For Charge
+	10% Capital Reserve Fund Charge
+	MPGS Cost of Operation, Maintenance, and Administration
=	Delivered Cost to Consumer (DTH)
x	DTH to MCF Conversion Factor
=	Delivered Cost of Gas (MCF)

19-309. Customer billing and payment policy. (1) Gas bills shall be rendered monthly and shall designate a standard net payment period for all customers of not less than ten (10) days after the date of the bill. Failure to receive a bill will not release a customer from payment obligation. There is established for all customers a late payment charge not to exceed ten percent (10%) for any portion of the bill paid after the net payment period.

(2) The customer's bill should be paid on or before the fifteenth day of each month in order to receive the net price on the monthly bill. Payments received after the fifteenth of each month but prior to the twenty-fifth of each month, will incur a ten percent (10%) late penalty charge.

~~(3) If a customer fails to make payment by the twenty-fifth of each month, then an automatic twenty-five dollar (\$25.00) service fee will be added. In addition thereto, the termination of services process as set forth in § 19-309, termination or refusal of service, shall be commenced.~~

(4) Payment must be received no later than the due date. If the due date falls on Saturday, Sunday or a city holiday, net payment will be accepted if paid on the next business day.

(5) Customers may receive an extension to pay their monthly bill upon written request to the city manager or the director of public works. To receive an extension, the customer must make the request at least two (2) days prior to the disconnect date and have justifiable cause. Further, the customer must pay fifty percent (50%) of the outstanding bill at the time the payment extension agreement is initiated and the remaining fifty percent (50%) within two (2) weeks from said date. A request for a payment extension is limited to two (2) per year if based upon justifiable cause and a second request may not be made while an extension is in effect. Failure to abide with the terms and conditions of a payment extension request shall disqualify a customer from receiving another extension.

(6) If a meter fails to register properly, or if a meter is removed to be tested or repaired, or if ~~water~~ gas is received other than through a meter, the city reserves the right to render an estimated bill based on the best information available. (Ord. #85-662, April 1985, as replaced by Ord. #2011-930, June 2011, and amended by Ord. #2012-942, March 2012, and Ord. #2017-1010, Oct. 2017)

~~Strikes the \$25.00 service fee for failure to make payment by the 25th of each month. We already have a \$75.00 reconnection fee that addresses cut off fees for utilities.~~
