July 15, 2024

Don,

Good day and thank you for your interest in the Polaris RANGER Emergency Service Vehicles.

While the RANGER Crew XP 1000 NorthStar Edition Premium and a handful of the accessories included in your configuration may be sourced through a local Polaris RANGER Dealer, the Action Deluxe Emergency Light Kit, the Action Premium light bar, Compact Rescue Skid and Action Custom Graphics are not available through the Polaris Dealer Network due to the unique set-up characteristics these items require. As a result, Polaris Government & Defense, as the OEM, is the only source of supply for the complete system as featured in quote QUO-54196-R0Q5B1.

Additionally, all emergency service systems have been tested and approved through Polaris Engineering and will not void the factory warranty on the RANGER.

Please contact us with any further questions you may have.

Regards,

Nick Larson
