

TOWN OF MONCKS CORNER REGULAR MEETING
Tuesday, September 17, 2024

Title: Consider Task Order 2 for Stormwater Inventory and Mapping

Background: The Town asked Seamon Whiteside, our stormwater consultants, for a proposal for professional engineering services to complete the inventory and mapping of our stormwater system.

This scope of their proposal includes project management, field investigations, surveys and GIS mapping.

They will also, develop ArcGIS online (AGOL) web mapping applications for the Town to view and access the town's stormwater and drainage asset data.

These mapping applications will allow town personnel to track progress as well as view/access data.

The total of all tasks is \$325,000.

Exhibits: 1.) Task Order Proposal

Funding: ARPA Funds

City Council action requested: Approve Task Order 2 from Seamon Whiteside for Stormwater Inventory and Mapping for \$325,000 and authorize the funds to come from the APRA Fund.
