LONG-TERM DEBT

The Board received and filed the following report: The Improvement Corporation was first used in 1986 to issue \$3,500,000 of Certificates of Participation (COPs). In July 1994, the remaining balance (\$3,070,000) was refunded, and new certificates were issued. The Corporation was used again in July 2001 to issue \$348,000 in COPs relative to the Improvement District "E" project.

Arturo Ceja noted that generally, there is not a staff report for this item, but since there are new members on the Board, he felt it important to help them understand what is being presented. For the IDE territory, MSWD took out a certificate of participation, which is, in essence, bonds. This was one of the debts presented in the audit report. The original bond was \$348,000 and has a current balance of \$229,000. It is a bond requirement to approve this every year and report it to the State. This keeps the Improvement Corporation open in the event the District needs to go out for more bonds. This debt cannot be paid in full; annual payments are required for the bond. The fiscal impact of this bond is \$8,200 per year in interest, and the principal payment is 10,710 per year.

Motion made by Director Griffith, Seconded by Director Duff.
