RULES OF PROCEDURE

Rules of Procedure were read by General Counsel, John Pinkney.

All noticed meetings are conducted using Rosenberg's Rules of Order as a procedural guideline. Directors should refrain from responding directly to public comments at meetings of the Board. The Board President will refer matters raised during public comment to the General Manager for follow-up when appropriate. Occasionally, a prompt response may be offered when an obvious answer resolution is available provided this is done in compliance with the Brown Act. Directors should refrain from debating or making decisions in response to public comments. The President of the Board presides at all meetings and decides all points of order and procedure during meetings. The President is responsible for maintenance and decorum at all Board meetings. No person shall be allowed to speak who is not first been recognized by the President. All questions and remarks should be addressed to the President as the presiding officer. No member of the Board should speak more than once about any one subject until every other member on the Board wishing to speak on the subject shall have been given the opportunity to speak. No Board member shall interfere with the orderly progress of a Board meeting. In order to ensure the orderly progress of Board meetings the Board President regulates the amount of time to be dedicated to a particular agenda item."

DISCUSSION ITEMS**NANCY WRIGHT REGIONAL WATER RECLAMATION FACILITY UPDATE**

Steve Ledbetter of TKE presented a construction and grant update to the Board.

CRITICAL SERVICES CENTER AND ADMINISTRATION BUILDING UPDATE

Brian Macy presented a brief update to the Board and reminded the Board of the upcoming tour of East Valley Water District.

SUPPLEMENTAL ENVIROMENTAL PROJECT UPDATE

Eric Weck presented an update. Pursuant to a settlement of an enforcement action with the Colorado River Basin Water Board, a proposal by Mission Springs Water District (MSWD) to develop and complete a Supplemental Environmental Project (SEP) was recently approved.

The SEP is funded by MSWD to provide funding to construct private sanitary service laterals from MSWD sanitary sewers located in public right-of-way, to the on-site sewer plumbing, and abandon septic systems located on private property. This project seeks to enhance groundwater quality protection by removing known point sources of groundwater degradation in high-density, economically disadvantaged areas.

MSWD funding for the SEP includes the preparation of environmental clearance documents, project specifications, and the abandonment of existing septic tanks and construction of up to 28 sanitary service

laterals.

MSWD reached out to 55 property owners that met the criteria to abandon their septic systems and connect their properties to MSWD sanitary sewers, and 31 property owners returned sewer connection applications, showing interest in the program. Staff prepared the project scope, construction specifications and solicited construction bids for the project. On May 18, 2023, two bids were provided and are detailed in the attached Bid Summary.

Both of the bids received exceeded the anticipated project cost of \$175,000. The bids were rejected and currently, staff are reviewing the project scope and seeking to remove unnecessary construction items while fulfilling the essential components of the SEP. Staff anticipate re-advertising construction bids by the end of June 2023 and once bids are received, they will be submitted to the Board of Directors for approval. Staff received and publicly opened two bids as described in the attached Bid Summary. The engineer's estimate of construction was \$162,050. Presently, the staff is redeveloping the project plans and specifications for rebidding within the next several weeks.
