Timeline of Application/Procedures of approval, denial, and appeal

Before any building permit shall be approved in historical districts required by Ordinance 2009-03, the Landmark Commission shall review the application at a regularly scheduled meeting within thirty (30) days from the date the application is received, at which time an opportunity will be provided for the applicant to be heard.

The Commission shall approve, deny, or approve with modifications to the permit within thirty (30) days after the review meeting.

In the event the Commission does not act within thirty (30) days of receipt of the application, a building permit may be granted.

An applicant for a certificate of appropriateness is dissatisfied with the action of the Landmark Commission relating to the issuance of denial of certificate of appropriateness shall have the right to appeal to the City Council within thirty (30) days after receipt of notification of such action.

REQUIREMENTS FOR APPROVAL OF CERTIFICATE OF APPROPRIATENESS

1. Every reasonable effort shall be made to adapt the property in a manner which requires minimal alteration of the building structure, object, or site and its environment.
2. The distinguishing original qualities or character of a building, structure, object, or site and its environment shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features should be avoided when possible.
3. All building, structures, objects, and sites shall be recognized as products of their own time. Alterations that have no historical basis and which seek to create an earlier appearance shall be discouraged.
4. Changes which may have taken time place in the course of time are evidence of the history and development of a building, structure, object, or site and its environment. These changes may have acquired significance in their own right, and this significance shall be recognized and respected.
5. Distinctive stylistic features or examples of skilled craftsmanship which characterize a building structure, object, or site shall be kept when possible.
6. Deteriorated architectural features shall be repaired rather than replaced, wherever possible. In the event replacement is necessary, the new material should reflect the material being replaced in composition, design, color, texture, and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplications of features, substantiated by historical, physical, or pictorial evidence rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.
7. The surface cleaning of structures shall be undertaken with the gentlest means possible. Sandblasting and other cleaning methods that will damage the historic building materials shall not be undertaken.
8. Every reasonable effort shall be made to protect and preserve archeological resources affected by, or adjacent to, any project.
9. Contemporary design for alterations and additions to existing properties shall not be discouraged when such alterations and additions to existing properties shall not be discouraged when such alterations and additions do not destroy significant historical, architectural, or cultural material, and such design is compatible with the size, scale, color, material, and character of the property, neighborhood, or environment.
10. Whenever possible, new additions or alterations to buildings, structures, objects, or sites shall be done in such a manner that if such additions or alterations were to be removed in the future, the essential form and integrity of the building, structure, object, or site would be unimpaired.
