

#1

- Three air Scubber units with blue light and odor neutralizer for the three-dog kennels.

This helps to sterilize the bacteria in the air, so viruses do not spread. It will also neutralize the odor.

-ERV unit for the sick cat room

This will help to get the airborne viruses of sick cats out of the facility.

This will only be used when sick cats are being housed.

A&S Air Conditioning, Inc. \$ 5,200.00

#2

Generac Generators

- At the current time if we were to lose power to the shelter, we don't have any back up power source in place to cool the building for the animals or to provide light needed to clean their cages.

Lowes 26,000 watt \$7,459

22,000 watt \$6,117

10,000 watt \$ 3,707

Home Depot- 26,000 watt \$6,839

22,000 watt \$6,117

10,000 watt \$3,707

C&S Refrigeration LLC 32,000 kw \$28,953.

(includes installation, pad, etc. Automatically comes on when there's a power failure)

#3

Fenced in meet and greet yards

-We currently have pipe fencing in the back of the building. We would love to purchase chain link fence. The chain link would be attached to the pipe fence to have the ability to have large, shaded Meet and Greet yards for adopters to play with the dog and evaluate them.

Lowes – 50-foot chain link roll (\$124)

6 rolls needed total (\$744)

Home Depot- 50-foot chain link roll (\$124)

6 rolls needed total (\$744)

# 2025-2026 Capital Budget Request

Department	Animal Control	
Request Number	\$5,200	
Request Priority Number	#1	
Item/Project Requested	ERV - Energy Recovery Ventilator	
What is the goal you hope to achieve with this item/project?		
To provide clean, sanitized air in the kennels. To eliminate and neutralize odors.		
How will you attempt to achieve the same goal if this request is not granted?		
We currently have no way to sanitize the kennels for airborne diseases.		
Date of Quote #1	Vendor for Quote #1	Price of Quote #1
June 11, 2025	ATS Air Conditioning	\$5,200

# 2025-2026 Capital Budget Request

Department	Animal Control	
Request Number	\$28,953.	
Request Priority Number	#2	
Item/Project Requested	Generac Generator	
What is the goal you hope to achieve with this item/project?		
To provide ventilation and electricity to the shelter in the event of a long term power outage.		
How will you attempt to achieve the same goal if this request is not granted?		
Because the shelter is built without windows, if we do have an outage, there will be no way to circulate air within the building. Even under the barn, summer time heat is unbearable without circulation of air.
