

April 8, 2024

Mr. Ray Valdez:

I have reviewed the submittal provided by Lambda Construction for construction of the Hueco Springs Substation and Henne Substation Breaker Additions project, and I have reviewed the evaluation of Lambda Construction's submittal provided by Schneider Engineering. I recommend awarding this contract to Lambda Construction based on their pricing which aligns with current market conditions, Schneider Engineering's recommendation, and NBU Substation's past experience with them.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Morriss".

Jeff Morriss

NBU Substation Manager
