MEMORANDUM

TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL

FROM: PATRICK J. MARTINEZ, CITY MANAGER

SUBJECT: WEEKLY MEMORANDUM

DATE: July 11, 2025

1. Supporting Youth Development & Recognizing Community Partnerships

I'm pleased to share the final designs for the new monument signs at **Bob Belt Beach Park** and **Manny Morris Park**, generously donated by **Arrowhead Credit Union**. See attached image for a description of the donation. These signs enhance our public spaces and reflect Arrowhead's continued investment in our community. For nearly a decade, Arrowhead has been a valued partner—supporting initiatives such as toy drives, food distributions, and senior lunches. Please join me in thanking them for their ongoing commitment to the **City of Needles**, and be sure to express your appreciation when you see one of their representatives. Additionally, **Saturday, July 12**, Arrowhead Credit Union will be hosting a **free financial literacy workshop**, "*On The Money*," for youth ages 12–18 from **10:00 AM to 12:00 PM** at the **Needles Recreation Center**. This event directly supports the **City Council's goal of prioritizing youth development** by offering real-world educational opportunities that help prepare our young residents for the future. **I encourage everyone to stop by and show support for this critical initiative.**

2. County Spotlight Highlights Needles' Historic Legacy

San Bernardino County recently featured the City of Needles in its official [newsletter](#), drawing regional attention to our community's unique heritage and growing importance in the county. The article celebrated Needles as one of the oldest cities in San Bernardino County—tracing our origins back to the establishment of the railroad in 1883, the construction of the iconic El Garces Hotel in 1908, and our prominence along historic Route 66. References to notable events like General Patton's training maneuvers and cultural ties to *Peanuts* creator Charles Schulz further underscore the city's rich and diverse legacy. While our community and Council know this history well, this countywide spotlight is a welcome recognition that supports the **City Council's ongoing efforts to promote tourism, strengthen public relations, and foster civic pride**. The article also affirms **Needles' strategic role in regional economic development**. Located at the crossroads of **Interstate 40 and Highway 95**, Needles remains a vital logistics corridor for goods movement across the western United States. This strategic location continues to drive investment opportunities and economic resilience—further advancing the **Council's vision**

for sustainable growth and business-friendly development. We thank San Bernardino County and the Assessor-Recorder-Clerk's Office for highlighting Needles and helping elevate our profile throughout the region.

3. Well No. 11 Treatment Facility Now Online

The City of Needles is proud to announce that the **Well No. 11 Treatment Plant is now fully online and operational**, marking a major milestone in our long-term investment to modernize local water infrastructure. This **\$8.9 million project**—supported through funding from the **State Water Resources Control Board, U.S. Environmental Protection Agency, and California Climate Investments**—is actively treating groundwater from **Wells No. 11, 12, and 15**, now delivering cleaner, safer drinking water across the system. The facility is part of a broader **\$14.3 million infrastructure program** that includes booster station upgrades, pipeline improvements, and new emergency power systems. These improvements directly advance the **City Council's goals to protect public health, ensure sustainable essential services, and improve overall quality of life**. This achievement is a clear example of how strategic planning and strong interagency collaboration can deliver long-term benefits to our community. The City is grateful to all funding partners and staff who helped make this critical investment a reality.

4. Citywide Beautification and Storm Recovery Efforts

In alignment with the **City Council's goals to enhance public safety, improve infrastructure, and promote community pride**, City staff continues to respond swiftly to ongoing maintenance and beautification needs. This week, the **Public Works Department launched targeted sidewalk repairs** in areas affected by buckling and storm damage. Crews have removed compromised sections and are actively framing and preparing to pour **new concrete** in the neighborhoods of **Lillyhill, D Street, and F Street**. In addition, **storm cleanup remains a priority citywide**. Crews are actively clearing debris to ensure roads and public spaces remain safe and accessible. The **street sweeper, which had been temporarily out of service, will be back in operation Monday** after staff successfully sourced and installed a replacement part from a local vendor. Cleanup efforts will focus on impacted neighborhoods first and continue until all areas have been addressed. These efforts demonstrate our **commitment to proactive service delivery, resident safety, and the long-term beautification of Needles**.

5. Rural Transit Day: Free Rides on July 16

In recognition of **Rural Transit Day on Tuesday, July 16**, **Needles Transit Services**—which include **NAT's deviated fixed-route service and Dial-A-Ride (DAR) curb-to-curb service for seniors and individuals with disabilities**—will participate in a **countywide initiative led by the San Bernardino County Transportation Authority (SBCTA)** to promote public transit in rural communities. As part of this effort, **free rides will be available all day on both Needles Area Transit and Dial-A-Ride**. **Reservations are required for Dial-A-Ride**; to request a ride, please call **760-326-4789**. **Thank you to SBCTA for supporting this regional effort**. For more information, visit needlestransit.com or call **760-326-2113 ext. 115**. **A flyer is attached for reference.**

6. **Weekly Mobile Medical Clinic in Needles**

As a reminder, the **San Bernardino County Department of Public Health** continues to operate a **weekly Mobile Medical Clinic in Needles** every **Thursday from 8:00 AM to 4:00 PM** at the **Transitional Assistance Department lot (1090 E. Broadway)**. Offered through the **County's On-The-Go Health initiative**, the clinic provides **no-cost primary and urgent care services**, including **health screenings, chronic disease management, pregnancy testing, minor wound care, and Medi-Cal enrollment assistance**. **No insurance is required**, and services are open to **all California residents**. **Appointments are strongly encouraged** by calling **(800) 722-4777 (Press 5)**. Please continue helping us share this valuable resource with the community.

7. **Fourth of July Enforcement Summary – Marine and Fireworks Activity**

From **Friday, July 4, to Sunday, July 6, 2025**, the **San Bernardino County Sheriff's Department Marine Enforcement Unit** conducted its **Fourth of July Holiday Operation** along the **Colorado River**, which includes the **Needles area**. During the operation, the department deployed **nine patrol vessels**, an **OHV team**, and a **Sheriff's Department helicopter**. A total of **112 enforcement stops** were conducted, resulting in **66 citations issued**. One **boating under the influence arrest** involved a resident of **Needles, CA**. For additional details, please refer to the **attached press release**.

In addition, the Sheriff's Department implemented **zero-tolerance fireworks enforcement** in Needles. Only **"safe and sane" fireworks** are permitted—anything that **explodes or becomes airborne is illegal**. While the department reported **five fireworks-related calls for service** between **June 25 and July 6**, we continue to encourage residents to report violations by calling **Sheriff's Dispatch at (909) 387-8313**. As a reminder, **9-1-1 should only be used for emergencies** that require immediate law enforcement, fire, or medical response.

8. **Rural Hospital Funding – Colorado River Medical Center (CRMC)**

The recently enacted federal budget includes **Medi-Cal Disproportionate Share Hospital (DSH) payment reductions** scheduled to begin in **Fiscal Year 2025–26** and continue through **2027–28**. Based on guidance from CMS and DHCS, these cuts are projected to reduce funding by approximately **55.31%**. These payments have historically helped stabilize rural hospitals that serve high numbers of Medi-Cal patients. Although the City of Needles does not operate CRMC, the hospital is a critical part of our local infrastructure and the only full-service healthcare facility. Recognizing its importance, the City has been **actively working with CRMC leadership to monitor the situation and identify potential strategies to help safeguard services** for Needles residents. We will continue to stay engaged on this issue and support the hospital's efforts to navigate the upcoming financial challenges while maintaining access to care in our community.

9. **2025 City of Needles Assessment Roll – Continued Growth**

The **San Bernardino County Assessor-Recorder-Clerk's Office** has released the **2025 Assessment Roll** for the **City of Needles**, reflecting a total assessed property value of **\$593,071,256**. This marks a **5.3% increase** from 2024 and a

remarkable **93% increase** since 2017. The assessment roll captures the total value of locally assessed real estate, business, and personal property that has increased due to ownership changes or new construction. This upward trend is a direct reflection of the **City Council's goals to promote economic development, attract investment, and strengthen the long-term financial health of the city**. The city's progress in recent years highlights the alignment between policy direction and outcomes that benefit both residents and the local economy. **Refer to the attached chart for a visual summary of our assessment growth over time.**

10. Jack Smith Memorial Boat Launch – Peak Season Activity

I want to extend my appreciation to our Recreation staff for their **exceptional work** at the **Jack Smith Memorial Boat Launch** this season. The facility has seen **high traffic throughout the summer**, particularly during the **recent holiday weekends**. Our team has **gone above and beyond—managing operations, keeping the area clean, and ensuring a safe, welcoming environment** for both residents and visitors. Their efforts paid off: **all 750 annual launch passes have __SOLD OUT__ well ahead of the October season-end**, underscoring the launch's popularity. Thanks to this **hard work**, the boat launch continues to **shine** as one of Needles' **most popular and well-used recreational assets**, helping drive **regional tourism** and **community pride**. **Great job to the entire team** for their **continued dedication** during our **busiest time of year**.

11. Aquatics Programming Enhances Community Health and Engagement

The **City of Needles** continues to see strong participation in its **morning water exercise classes** at the **Needles Aquatic Center**. These **low-impact fitness sessions** provide a **safe, enjoyable, and healthy** way for adults of all ages to stay active during the summer months. "A local resident recently commented: *"Thank you for providing an excellent exercise program for the citizens of Needles!"* This type of community feedback reinforces the **City Council's ongoing commitment** to promoting **health, wellness, and quality of life** through accessible recreation. In addition to the morning exercise classes, the City offers a variety of **aquatics programs** throughout the season, including **open swim, swim lessons** for both children and adults, **family swim nights**, and **lifeguard certification courses**. These offerings are designed to support **youth development**, promote **public safety**, and provide **intergenerational recreational opportunities** for residents and visitors alike. We thank our **Recreation staff** for their continued dedication and effort in making these programs a success. For more information about current aquatic offerings, view the flyer [here](#) or contact **(760) 326-3866**.

12. Support for Local Youth Leadership

City Manager Patrick Martinez submitted a formal letter of recommendation in support of **Robert Yankee's Eagle Scout candidacy**, highlighting the City's continued support for youth achievement and civic engagement. Robert's **Eagle project—a thoughtfully crafted bench at Lynne's Garden—adds lasting value** to one of Needles' key public spaces and reflects the City Council's goals to promote **youth leadership, civic pride, and enhancement of community**

assets. Beyond his project, Robert has excelled in **academics, athletics, and public service**, and is preparing to begin basic training to become a **firefighter in the U.S. Navy**. The City proudly supports Robert's path and recognizes him as a rising citizen-leader dedicated to service and community improvement.

13. Excessive Heat Warning – Cooling Centers and Fire Safety Preparedness

The **National Weather Service** has issued **Excessive Heat Warnings** for the **Tri-State area** over the past few weeks. In response, the following facilities in Needles are available to the public as designated **cooling centers**: the [Needles Aquatic Center](#) at **1101 Civic Center Drive**, the [Needles Senior Center](#) at **1699 Bailey Avenue**, and the [San Bernardino County Public Library – Needles Branch](#) at **1111 Bailey Avenue (hours of operation vary)**. Residents are encouraged to **stay hydrated, limit outdoor activities**, and remain aware of the signs and symptoms of **heat exhaustion** and **heat stroke**.

In addition to health concerns, forecasters are warning that the prolonged heat will continue to **elevate fire weather conditions**, increasing the potential for wildfire activity. It is important for residents to be **prepared** and take **preventive measures** to reduce wildfire risk. **Cal Fire** has published a **Wildfire Evacuation Guide**, click on [this link](#) for your reference.

14. Interstate 40 Pavement Rehabilitation Project

Caltrans District 8 has initiated the **Design Phase** for the **Interstate 40 Pavement Rehabilitation Project** near **Needles**, covering a segment of westbound I-40 from **approximately 2 miles east of Five Mile Road to I Street**. The project will include pavement rehabilitation, safety enhancements, and the installation of a **concrete median barrier** to address collision risks, particularly during rainy weather events. Currently in the **Plans, Specifications & Estimates (PS&E) Phase**, construction is anticipated to begin in **mid-2026**. The estimated cost is **\$8.6 million**, funded through a combination of **federal and state sources**. This corridor is part of a critical transcontinental route used heavily by freight and regional traffic. The project supports safer travel conditions improved surface quality, and aligns with the **City Council's infrastructure improvement priorities**. The City values its continued partnership with Caltrans and will remain engaged as the project advances. **See the attached Caltrans Fact Sheet for additional details.**

15. Advancing Community Wellness Through Partnership

Tri-State Community Healthcare continues to be a vital partner in supporting the City Council's goals of improving public health, expanding youth recreation, and strengthening community engagement. On **Saturday, August 2**, Tri-State will sponsor a **free Night Pool Party** at the **Needles Aquatic Center** from **6:00–9:00 PM**, featuring complimentary **hot dogs, drinks, snacks**, and **water bounce house slides**. This event offers families a safe, festive environment to enjoy summer recreation and connect with one another. To further encourage youth physical activity, Tri-State is distributing **100 free pool passes** to local children. Passes are available for pick-up at their **West Broadway Clinic (820 W Broadway St)** and are valid during **open swim (Monday–Thursday)** at the Aquatic Center. In addition to recreational support, Tri-State is advancing nutritional wellness. On **July 9**, they hosted another **free produce distribution**

event, providing over **35,000 pounds of fresh fruits and vegetables** to Needles residents. These initiatives represent **Tri-State's strong and ongoing investment in Needles' health and quality of life**, and they directly advance the Council's vision for a more active, connected, and resilient community.

16. Celebrate Freedom – 4th of July Pool Party

The **Needles Elks Lodge** hosted its annual “**Celebrate Freedom**” **4th of July Pool Party** at the **Needles Aquatics Center**, drawing **133 attendees** and raising **\$550** through donations and concessions. The family-friendly event featured open swim, games, prizes, and the return of the **Miss Freedom and Mr. Firecracker contest** for children ages 4–5. The **City of Needles** was proud to support this community tradition, which aligns with the **City Council's ongoing commitment to community engagement and recreational programming**. We extend our sincere thanks to the **Needles Elks Lodge** for organizing and leading this celebration. We also wish to thank **Assemblymember Jeff Gonzalez** for sending a representative to attend and support the event, further reinforcing the importance of civic partnership in building strong community connections.

17. Needles Women's Club Lunch Fundraiser (NEXT TUESDAY)

The **Needles Women's Club** invites the community to participate in their July fundraiser on **Tuesday, July 16, 2025**, offering a **Chicken Teriyaki Bowl with dessert** for just **\$10**. Proceeds support scholarships, youth programs, women's empowerment, and civic engagement across Needles. Meals are available for **pickup or delivery (3 or more orders)** within the local area. Orders must be placed in advance using the official online form by clicking [here](#). Pickup and delivery will take place between **11:00 AM and 1:00 PM** on July 16. We thank the Women's Club for their dedication and **Billet Health** for serving as this month's lunch sponsor. Your participation helps strengthen our community and support meaningful local causes.

18. Community Events Calendar Now Live on City Website

As part of the City's newly launched website, we're excited to introduce a [comprehensive Community Events Calendar](#) designed to keep residents informed about the many activities and happenings across Needles. We invite **local organizations and event organizers** to collaborate with the **City Clerk's Office** to add or update events—helping ensure the calendar remains vibrant, inclusive, and reflective of our community's diverse offerings. To contribute or request modifications, please contact **Candace Clark** at cclark@cityofneedles.com. Your participation helps strengthen community spirit and enrich the local experience for residents and visitors alike.

2. COUNTY SPOTLIGHT

San Bernardino County history: Needles

July 3, 2025

[COUNTY HISTORY](#) | [COUNTYWIRE](#)

Wooden wagon on Route 66 welcomes drivers to Needles.

Needles is one of the oldest cities in San Bernardino County, located in the eastern portion of the county near the borders of Arizona and Nevada.

In 1859, the United States Army established Camp Colorado (later renamed to Ft. Mojave) on the east side of the Colorado River in this region. By 1883, the first railroad crossed the Colorado River from Topock, Arizona to the present-day site of Needles, which led to the town's formation.

The town was named after "The Needles," a distinctive group of rock pinnacles and mountain peaks in Mohave County, Arizona, which ranged from 1,207 to over 1,600 feet. In 1890, the railroad company built a high cantilever bridge ten miles downstream from Needles, which was known as the Red Rock Bridge.

7. SBSD MARINE ENFORCEMENT

SBSD - Colorado River Sheriffs Department

Monday July 7th, 2025 :: 10:27 a.m. PDT

Advisory

Holiday Marine Enforcement Operation Results in Eight Arrests and 66 Citations Issued

DATE: July 7, 2025

INCIDENT: Holiday Marine Enforcement Results

LOCATION: San Bernardino County

SUMMARY: The San Bernardino County Sheriff Department's Marine Enforcement Unit conducted its 4th of July Holiday Enforcement Operation starting on Friday, July 4th through Sunday, July 6th. The operation was conducted along the Colorado River, from the California/Nevada state line to the Riverside County line, as well as Big Bear Lake and Lake Arrowhead.

Most of the operation was focused on the waterways with resorts, launch ramps and marinas along the river and lakes. A total of nine patrol vessels, an OHV team, and a Sheriff's Department helicopter were deployed throughout the area. The Marine Enforcement Unit conducted a total of 112 enforcement stops throughout the holiday weekend. There was a total of eight arrests made for boating under the influence. The following are the names of the individuals arrested during the operation:

Brandon Frere, 49 years of age, Glendora, Ca. (Boating under the influence)
Douglas Miller, 23 years of age, Glendale, Az. (Boating under the influence)
Olivia Lindholm, 22 years of age, Tempe, Az. (Boating under the influence)
Nathan Smith, 20 years of age, Las Vegas, Nv. (Boating under the influence)
Sharli Taylor, 50 years of age, Mohave Valley, Az. (Boating under the influence)
Samuel Wallace, 27 years of age, Lucerne Valley, Ca. (Boating under the influence)
Devin Tittle, 24 years of age, Brea, Ca. (Boating under the influence)
John Romero, 33 years of age, Needles, Ca. (Boating under the influence)

Approximately 66 citations were issued for various boating law violations as well as hundreds of verbal warnings. The Marine Enforcement Unit investigated two minor injury boat accidents, a propeller strike that occurred on the Parker Strip and a skier mishap that occurred on Lake Havasu. A drowning occurred at Black Meadow Landing on Lake Havasu; the circumstances of the incident are still under investigation at this time.

The Colorado River Station Marine Enforcement Unit urges all California residents to go online to www.californiaboatercard.com and take the online test to obtain their boater card, which is now required by law, regardless of age. The Colorado River Station Marine Enforcement Unit is, as always, dedicated to providing a safe boating atmosphere for the public and reminds everyone to wear their life jackets and to boat sober.

14. CALTRANS PROJECT I-40

Improving lives and communities through transportation

District 8 PROJECT FACT SHEET

Interstate 40 Pavement Rehabilitation Project Near Needles

Project Overview

The California Department of Transportation (Caltrans) District 8 will deliver a pavement rehabilitation project on westbound Interstate 40 (I-40) near the City of Needles in San Bernardino County, approximately twelve miles west of the Arizona State Line. The project will provide an asphalt overlay and cold plane paving in the existing two westbound lanes of I-40 for approximately two miles between Fox Wash and L Street. The work will also install rumble strips on the inside and outside shoulders, upgrade guardrail, add a high-tension cable barrier and in the median. The purpose of the project is to reduce the frequency and severity of collisions during rainy events by improving the pavement surface condition and reducing crossover collisions by installing the median barrier.

Purpose

The purpose of this project is to reduce the frequency and severity of collisions during rainy events by improving pavement surface condition within the project limits and reducing crossover collisions by installing median barrier.

Need

The number of collisions has increased along westbound during rainy events and skid test showed numbers below the minimum required threshold. This segment of I-40 has also been identified in the most recent Table C and Table C Wet reports for investigations. Also, this segment of I-40 was identified in the 2020 crossover collision monitoring program report. The project is needed to address these current deficiencies.

Travel Impacts

I-40 is a major transcontinental highway that begins at the junction with Interstate 15 (I-15) in Barstow and travels to the Arizona State Line in California. It is a major east/west corridor primarily used by the trucking industry, recreational vehicles, and motorists traveling to and from California.
