Dear Mr. Martinez,

This letter confirms discussions between our respective staffs, on March 3, 2025, concerning the status and continuation of the cooperative water-resources between the City of Needles and the U.S. Geological Survey (USGS).

The purpose of this amendment is to extend the Period of Performance end date from April 30, 2025 to April 30, 2028. Total cost of the program to USGS over all fiscal years, remains at \$334,134.00. Total cost of the program to City of Needles over all fiscal years, remains at \$ 2,383,658.00.

The additional time will be used for the continuation of our cooperative study entitled: "Groundwater Flow and Estimation of Total Dissolved Solids Concentrations near the Lower Colorado Water Supply Project, Imperial County, California". Specific tasks shall include: (1) complete installation of shallow observation wells and estimate local seepage, (2) complete the hydrogeologic framework model, (3) complete the regional three-dimensional groundwater-flow and transport model to estimate future TDS concentrations, and (4) publish the hydrogeologic framework and groundwater-flow model reports, and associated Data Releases.

Attached is a digitally signed copy of Joint Funding Agreement (JFA) 22ZGJFA60101110_01 for your approval. If you are in agreement with this proposed program, please sign and return an executed copy to cawscagrements@usgs.gov. If you have any questions concerning the program described above, please contact Michael Land at mtland@usgs.gov. If you have any administrative questions, please contact cawscagrements@usgs.gov.
