

OPERATION DRY WATER

JOIN US

The San Bernardino County Sheriff's Department and California State Parks cordially invites you to attend the official kickoff press conference for this year's Operation Dry Water campaign. This multi-agency press conference will highlight coordinated enforcement efforts, boating safety messaging, and the importance of sober boating ahead of the Operation Dry Water season.

You are also invited to attend a luncheon following the press conference. Your attendance and continued partnership are greatly appreciated as we work together to protect the public through education, enforcement, and community engagement.
