

City of Needles, California Request for Commission Action

☐ CITY COUNCIL ☒ BOARD OF PUBLIC UTILITIES ☒ Regular ☐ Special

Meeting Date: December 3, 2024

Title: California Energy Commission Calendar Year (CY) 2023 Power Content Label Annual Reporting

Background: The Power Content Label program was established to provide "accurate, reliable, and simple-to-understand information on the sources of energy used to provide electric services" to California consumers.

Signed by Governor Brown in September 2016, AB 1110 (Ting, Chapter 656, Statutes of 2016) requires that retail suppliers of electricity additionally disclose to consumers the greenhouse gas emissions intensity of the supplier's electric service products. This modification to the program will improve transparency for consumers and strengthen the Power Source Disclosure and the Power Content program's relevance to California's climate change activities. The NPUA's Power Content reporting has been previously approved. The Board must approve the annual report and power content label per the CEC program regulations.

Enclosed is the 2023 Power Content Label, which breaks down the power supplied to the City into energy resources categories. The annual report breaks down purchases procured through Western Area Power Administration, Parker-Davis, Aqua Caliente, and exchanges within the AES group.

Fiscal Impact: None

Environmental Impact: None

Recommended Action: **Move** to accept the annual report to the California Energy Commission Power Content Label for the year ending December 31, 2023

Submitted By: Rainie Torrance, Utility Manager
