Dear Mayor Good,

The Stibnite Advisory Council has completed our sixth year of meeting together to discuss and learn more about the Stibnite Gold Project. The project received its Final Record of Decision in January 2025, it's Notice to Proceed from the US Forest Service in September of 2025 and started early works construction in October of 2025.

2025 was a successful and busy year. We worked with leaders and community members to focus on challenges, project concerns and how the Stibnite Advisory Council can help as the Stibnite Gold Project moves into construction and operations. Here are some of the highlights:

- SAC continued our Independent Water Monitoring Program with the University of Idaho and will post our fifth year's sampling results soon. In summary, there continues to be substantial agreement between SAC's water analysis and Perpetua's, giving us confidence in the accuracy of water quality data reporting by Perpetua.
- We continued our Workforce Survey, with over 1000 respondents to help communities plan for how the project's expanded workforce might impact housing, traffic, and schools.
- Perpetua has continued to keep us updated on construction, litigation, financial assurance and infrastructure.

SAC will continue to receive presentations from Perpetua and other local organizations to educate ourselves on community issues, challenges or questions.

As we move into 2026 our focus will continue to be on needs as presented by our individual communities. Your representative will share our annual report by the end of the first quarter of 2026.

As per the Community Agreement, each community representative serves an annual term as per appointment by the Community they represent. The new term will begin February 1, 2026.
