City of New Meadows

Dear Mayor,

In the fall of 2020, several volunteers came together for an idea to re-do and re-design the three entry signs that say Welcome to New Meadows. The wooden signs were showing much wear and needed to be replaced. Additional volunteers came together to create a fundraiser and design the new signs.

We are pleased to announce that on December 28th, 2020 the deposit for the three new signs was made and a contract signed. Delivery will be in late spring when the ground around the signs is available for safe installation after the spring thaw.

We are also extremely excited to announce that over the holidays several more donations for this sign project were made directly to Citizens for Community Enhancement. These additional donations bring the total raised for the sign project to \$ 11,104.00. The completed project with all expenses, comes to 11,070.00.

We appreciate the City of New Meadows offer to set aside funds to be paid for any remaining costs needed to complete the sign project. It is with a grateful heart to our community that the City of New Meadows generous offer will not be required.

We thank you for your support of this Community Project – and we can not wait for the new entry signs to be installed this spring.

Sincerely,

A handwritten signature in black ink, appearing to read 'Linnea Hall'. The signature is fluid and cursive.

Linnea Hall, Coordinator from Citizens for Community Enhancement
