

City Clerk Staff Report October 12th 2021

What have I done:

Payment processing, bill pay, claims and payroll.

I uploaded the last 5 years of the cities Resolutions. Hopefully soon they will be able to be viewed by the public through our Municode system.

After our last City Council meeting, I did in depth research into a water meter with credit card access. I have not been able to find anything simple. The only options seem to be to create a filling station in which we would have to pay for the building and a fee for services.

This last week I mailed off 16 letters to our Idaho legislatures. Three of them went to the legislatures that work for our district and the others all went to those members who sit on the ARPA funds board.

I was able to attend a FEMA meeting with Adams County. We talked about mitigation plans for natural hazards like flooding, fires, landslides, and earthquakes that happen in our area and have the probability to affect our County in the future.

There has been some interest in our vacant spot in the industrial park. I was able to show it to one potential renter so far. He was interested in turning it into a deli.

Upcoming dates:

Tuesday November 2nd, Election Day don't forget to get out and Vote.

November 4th & 5th, I will be attending the Leadership Academy Retreat in McCall and I can't wait to network and be able to share ideas with others in our community and surrounding areas and bring that back to the City to share with everyone!!
