

## New Meadows Comprehensive Plan Update

04/08/22

The New Meadows City Council completed their review of the Comprehensive Plan on October 13, 2020. Earlier this spring, we invited the public to review the plan, and sent the plan to local businesses, Adams County, and the school for review. We advertised in the newsletter and received four requests to review the plan. After review, there have been no comments on the changes to the plan.

The next step in revising the Comprehensive Plan with your suggested changes is to hold a public hearing and notice interested entities. A new resolution with the changes will be created, and the changes would go into effect thereafter.
