Bryant,

Here is my written statement. (As a citizen)

I believe Nome Quickstop should have their license suspended for 6 months to compare and contrast with police data of police intoxication calls within the general area in order to make a sound decision before shutting down a business.

I also believe if we do not renew their license, folks wishing to continue to consume excess alcohol or get “runners” will do so and move to another part of town. So folks need to be ready for another area such as the park next to hansons. Think when we had the shelter at the rec center, numerous of people had issues from the street of Steadman to E 6th Ave rather than areas of the current NEST shelter.

This is not a permanent solution, however moving to a local option (aka damp) community where the City can control the sell of alcohol by permit and limit the amount per person and track is the more favorable way to go the city would need to hold in election time.
