Subject: Quick Stop Package Goods license
Date: Friday, January 14, 2022 10:31:00 AM

Caution! This message was sent from outside your organization.

Honorable City Council,

Thank you for the opportunity to make comment on the possibility of a Package Goods license renewal. In my time in the ER I have seen the range of responses from the angry raging inebriated person to the happy inebriated person and they tend to be highly repetitious.

I urge City Council to consider two things. 1. History will show that there will never be enough laws enacted or licenses revoked to keep folks from acquiring enough alcohol to need the ER's service. 2. We need City Council to increase the number of "challenges" to the easy acquisition of alcohol. In my time in the ER I have seen the range of responses from the angry raging inebriated person to the happy inebriated person and they tend to be highly repetitious.

If we are in a season of concern for the health of the public, I request that you please consider some measure of limitation to the renewal of the license because of some very vulnerable populations among us including our lower income, our elders, native women, Police staff, EMS, and BHS, ER, and SART hospital staff. The repetition of services is our duty as an ER (and as a hospital), but it lends itself to a significant hit on physical resources, an environmental impact (due to the medical supplies needed), and ultimately staff morale.

Thankyou for the opportunity to give input in something that has felt like "there's no say".

Daniel Hobbs
ER Nurse - NSHC
