FOR THE OLD DAIRY FARM FOR 1.13 ACRES OF PROPERTY LOCATED AT 716 SONIA DRIVE.

#### **ITEMS SUBMITTED FOR THE RECORD:**

1. Staff Report
2. Location Map
3. Transportation Impacts
4. Preliminary Plat
5. Preliminary Site Plan

**PRESENTATION BY STAFF:** Justin Fish reviewed the staff report, a copy of which is filed with the minutes.

Mr. Jablonski asked the location of the sewer line. Mr. Fish pointed it out on the site plan. Mr. Jablonski asked the location of the nearest park. The Parks Board location map shows the subject property and the nearest park.

**PRESENTATION BY THE APPLICANT:** Chris Anderson, SMC Consulting Engineers, representing the applicant, was available to answer questions.

Ms. Bird asked why the parking is in the front. Mr. Anderson responded that the sewer line in the front precludes locating a building in that area.

Ms. Bird asked about buffering for the neighbor on Sonia Drive. Mr. Anderson indicated there will be some islands in the parking area with some landscaping. There will be a detention pond on the south side.

Ms. Bird asked about improvements to Sonia Drive. Mr. Anderson explained that Sonia Drive is a private drive into the parking area, and serving existing houses. It will extend all the way to the west property line.

Ms. McKown asked about the requests in the letter from the Potts Family, for an 8' privacy fence, paved driveway aprons, and signage.

Pete Jackson, representing the applicants, stated that they are willing to do everything requested in the letter. The speed limit sign would be close to their driveway, and may not meet traffic guidelines. The fence, landscaping, buffering, driveway approaches, and a dead-end street all made sense. They will also pave the road to the west end.

Mr. Jablonski was concerned with the removal of large trees, and asked if any new trees will be installed. Mr. Jackson responded that they plan to plant trees in as many islands and places where they can. They may be able to save some of the trees around the perimeter.

Ms. Bird asked about a pecan tree. Mr. Jackson said it is where one of the buildings will be located. Ms. Kindel asked if they considered moving the tree because of its historical significance. Mr. Jackson said the tree is huge and he doesn't know of any way to move it.

#### **AUDIENCE PARTICIPATION:**

Sonja Potts, 3620 Barwick Drive, asked the percentage of pervious surface for the project. Another concern is stormwater and detention.

Kevin Potts, 3620 Barwick Drive, grew up with the family farm. He is concerned that the stormwater is mitigated correctly so it doesn't impact adjacent properties. There are some huge sycamore trees and pecan trees on the property; he would like to see some of them preserved.

Audra Carr, 709 Sonia Drive, said the pecan tree is too big to move. The Planning Department and the builders have addressed a lot of their concerns. They are concerned about light pollution. The houses on their property are still on well water, so they are concerned about pollution; she urged the builders to address that as much as possible with bioswales for filtration. They are sad to see the family farm go.

#### **DISCUSSION AND ACTION BY THE PLANNING COMMISSION:**

Ms. Bird commented that Moore Norman Technology has a wood turners association that will pick up wood at no cost. They are always looking for wood for projects.

Mr. Jablonski asked the percentage for impervious area. Ms. Hudson indicated it is 65%. It will be reviewed when the application comes in for a building permit.

Ms. Kindel asked if they will be using bioswales or rain gardens to help filter the stormwater. Mr. Anderson responded that there are bioswale areas at both ends of the detention pond.

Motion made by Jablonski, seconded by Brewer, to recommend approval of Ordinance No. O-2324-48 and PP-2324-17 to City Council.

Voting Yea: Brewer, McDaniel, McKown, Jablonski, Bird, Parker

Voting Nay: Griffith, Kindel

The motion to recommend approval of Ordinance No. O-2324-48 and PP-2324-17 to City Council passed by a vote of 6-2.
