Notes:

There have been some conversations about having Food and Shelter dining room operate as an emergency shelter. Though we do open our doors 24 hours during emergencies, we are not able to operate as a shelter full time. When we open our doors, we can comfortably sleep 75 people. We do not budget for this extra staffing so it is only done when life is at risk.

We are currently planning an emergency opening Jan 5th through 8th and will watch the weather for low temperatures or precipitation.
