***All Nuclear Moisture/Density Gauges used under the control or direction of the City shall be inspected daily to ensure the device is within the manufacturer's specified tolerances for moisture and density calibrations and that each gauge be calibrated and certified in accordance with the provisions of ASTM and AASHTO. Nuclear Moisture/Density Gauges are to be inspected, calibrated and certified yearly by the manufacturer or an approved independent certification service. Said certification is to be accompanied by the operating technician's certification and the laboratory's NRC license and delivered to the City Engineer. In addition, a semiannual report shall be provided by the Testing Engineer showing calibrations and any adjustments made.
