Age	
18-30	10
31-50	36
51-61	27
62 +	9
Not Recorded	4
Nightly Average	52

Notes:

The reports attached include a deeper level of data including physical and mental health diagnosis, age, race, gender and income amounts and sources.

Guests who stayed with us in October included 20 people with physical disabilities 4 with developmental disabilities and 9 with chronic health conditions.

Those with income report having \$1000 per month or less which is woefully insufficient to maintain housing costs in Norman.

Housing placements have come to a dead end without housing vouchers to assist people with rent and therefore people are really struggling to get out of the shelter/homelessness.
